

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

ANNUAL STATISTICS

OF

MANUFACTURES.

1896.

ELEVENTH REPORT.

BOSTON:

WRIGHT & POTTER PRINTING CO., STATE PRINTERS, 18 POST OFFICE SQUARE. 1897.

Commonwealth of Massachusetts.

BUREAU OF STATISTICS OF LABOR, CLAPLIN BUILDING, 20 BEACON STREET, BOSTON, MAY 29, 1897.

TO THE HONORABLE SENATE AND HOUSE OF REPRESENTATIVES:

I have the honor to transmit, herewith, the Annual Statistics of Manufactures for the year 1896, which have been collected and are presented in compliance with Chapter 174, Acts of 1886.

Very respectfully,

HORACE G. WADLIN, Chief.

THE

ANNUAL STATISTICS OF MANUFACTURES.

1896.

INTRODUCTION.

The present is the eleventh report on the Annual Statistics of Manufactures, issued in accordance with the provisions of Chapter 174 of the Acts of 1886.

The following table indicates the number of returns compared in these annual reports, in each year, beginning with 1886:

	 Y	EARS		Number of Establishments Considered	YEARS.					Number of Establishments Considered	
1886,				1,027	1892,						4,473
1887,				1,027	1893,						4,397
1888,				1,140	1894,						4,093
1889,				1,364	1895,						3,629
1890,				3,041	1896,						4,609
1891,				8,745							1

The value of these reports is, of course, proportionate to the number of returns upon which they are based, and the increase in the returns since 1886 is very gratifying. The thanks of this Bureau are extended to those manufacturers who have so willingly complied with the requests of this office.

Mr. Frank H. Drown, Second Clerk of the Bureau, has had direct charge, as heretofore, of the clerks and special agents engaged in the preparation of this volume. I wish to record here my thanks to him for the painstaking and efficient service which he has rendered; and also to acknowledge the general co-operation and assistance of Mr. Charles F. Pidgin, Chief Clerk.

. . . .

PRIVATE FIRMS AND CORPORATIONS; PARTNERS AND STOCKHOLDERS:

BY INDUSTRIES.

PRIVATE FIRMS AND CORPORATIONS; PARTNERS AND STOCKHOLDERS: BY INDUSTRIES.

1895.

[There are duplications in the columns devoted to "Number of Private Firms," "Partners," "Number of Corporations," and "Stockholders." These duplications are indicated by an asterisk (*). They are caused by the fact that the same firm or corporation is often engaged in manufacturing in two or more establishments located in different towns and sometimes in different industries. The plan adopted has been to consider each establishment (whether managed in connection with another or not) as one, and to credit the whole number of firms, partners, corporations, and stockholders to each industry, but to count them once only in making up the total for "All Industries."]

		Number of	Number	Part	TNERS

PRIVATE FIRMS AND CORPORATIONS; PARTNERS AND STOCKHOLDERS:

BY INDUSTRIES.

PRIVATE FIRMS AND CORPORATIONS; PARTNERS AND STOCKHOLDERS: BY INDUSTRIES.

1896.

[There are duplications in the columns devoted to "Number of Private Firms," "Partners," "Number of Corporations," and "Stockholders." These duplications are indicated by an asterisk (*). They are caused by the fact that the same firm or corporation is often engaged in manufacturing in two or more establishments located in different towns and sometimes in different industries. The plan adopted has been to consider each establishment (whether managed in connection with another or not) as one, and to credit the whole number of firms, partners, corporations, and stockholders to each industry, but to count them once only in making up the total for "All Industries."

CAPITAL INVESTED:

BY INDUSTRIES.

CAPITAL INVESTED: BY INDUSTRIES. 1895, 1896.

[In this presentation, the figures given under "Amount of Capital Invested" represent the returns made by the same establishments, in each industry, for the years 1895 and 1896, the whole number of establishments considered in "All Industries" being 4,609. Comparison is made, as regards the amount of capital invested, between these two years. The relative increase or decrease in 1896 as compared with 1895 is given with its equivalent percentage.]

RANGE OF EMPLOYMENT AND UNEM-PLOYMENT: BY INDUSTRIES.

1895, 1896,

[In this presentation, the excess of greatest over smallest number of persons employed for 1895 and 1896 is brought forward from the tables on pages 27 to 30 inclusive, and a comparison is made between the two years. The relative increase or decrease in the excess of greatest number over smallest number employed in 1896 as compared with 1895 is given with its equivalent percentage. It must be borne in mind that the persons here enumerated are wage earners only; officers, clerks, or other salaried persons are not included.]

WAGES PAID: BY INDUSTRIES.

, • • •

WAGES PAID: BY INDUSTRIES.

1895, 1896,

[In this presentation, the figures given under "Total Amount Paid in Wages During the Year" represent the returns made by the same establishments, in each industry, for the years 1895 and 1896, the whole number of establishments considered in "All Industries" being 4,609. Comparison is made, as regards the total amount paid in wages, between these two years. The relative increase or decrease in 1896 as compared with 1895 is given with its equivalent percentage. It must be borne in mind that these figures represent the sums paid to wage earners only and do not include amounts paid to officers, clerks, or other salaried persons.]

AVERAGE YEARLY EARNINGS: BY INDUSTRIES.

1895, 1896.

[The average yearly earnings, shown in this presentation, have been obtained by dividing the total amount paid in wages during the years 1895 and 1896 (pages 67 and 68) by the average number of persons employed during the same years (pages 27 to 30 inclusive). The relative increase or decrease in average yearly earnings in 1896 as compared with 1895 is given with its equivalent percentage. It must be borne in mind that these figures represent the sums paid to wage earners only and do not include amounts paid to officers, clerks, or other salaried persons.]

CLASSIFIED WEEKLY WAGES: BY INDUSTRIES.

1895. 1896.

[In this presentation is shown, for 1895 and 1896, a classification of the weekly wage, ranging from under \$5 per week to \$20 and over, and the number of males and females receiving such wage. The returns were made by manufacturers to cover the week during which the largest number of persons was employed.]

AGRICULTURAL IMPLEMENTS. [8 Establishments.]

PROPORTION OF BUSINESS DONE

AND

DAYS IN OPERATION:

BY INDUSTRIES.

[99]

PROPORTION OF BUSINESS DONE: BY INDUSTRIES.

1895, 1896.

[The figures given in this presentation represent the average proportion of business done by each establishment in the industries considered. Greatest capacity, or maximum production, has been considered as 100 per cent, and the percentages given indicate the average proportion of business done by each establishment during each year on the basis stated. Comparison is made between 1895 and 1896, and the relative increase or decrease in 1896 as compared with 1895 is given with its equivalent percentage.]

Industries.	Number of Estab- lishments	POR	BE PRO- TION , ESS DONE	Increase (+), or Decrease (-), in 1896

DAYS IN OPERATION: BY INDUSTRIES.

1895, 1896,

[The figures given in this presentation represent the average number of days each person was employed in the industries considered during the years 1895 and 1896. The average number of days in operation is based upon the average number of persons employed, the number of days per establishment being multiplied by the figures representing the average number of persons, and the sum divided by the aggregate average number of persons, an average for each industry and for All Industries being thus obtained. Comparison is made between 1895 and 1896, and the relative increase or decrease in 1896 as compared with 1896 is given with its equivalent percentage.]

1895, 1896.

NOTES.

The following explanatory notes should be read in connection with the tables to which they refer:

ESTABLISHMENTS, PARTNERS, ETC.

There are duplications in the lines devoted to "Number of private firms," "Partners," "Number of corporations," and "Stockholders." They are caused by the fact that the same firm or corporation is often engaged in manufacturing in two or more establishments located in different towns and sometimes in different industries. The plan adopted has been to consider each establishment (whether managed in connection with another or not) as one, and to credit the whole number of firms, partners, corporations, and stockholders to each industry, but to count them once only in making up the total for the presentation "All Industries." The industries in which these duplications appear may be ascertained by reference to the tables on pages 4 to 11.

CAPITAL INVESTED.

In this presentation, the figures given against "Amount of capital invested" represent the returns made by the same establishments for each of the years given. Comparison is made, as regards the amount of capital invested, between these two years. The relative increase or decrease in the later year as compared with the earlier year is given in amounts and percentages.

STOCK USED.

In this presentation, the figures given against "Total value of stock used" represent the returns made by the same establishments for each of the years given. Comparison is made between the value of stock used in each of these two years. The relative increase or decrease in the later year as compared with the earlier year is given in amounts and percentages.

GOODS MADE.

In this presentation, the figures given against "Total value of goods made and work done" represent the returns made by the same establishments for each of the years given. Comparison is made between the value of goods made and work done in each of these two years. The relative increase or decrease in the later year as compared with the earlier year is given in amounts and percentages.

PERSONS EMPLOYED.

This presentation is divided into two sections. In the first is shown the aggregate average number of persons employed, the aggregate number of persons employed at periods of employment of the smallest number, the aggregate number of persons employed at periods of employment of the greatest number, and the excess of greatest over smallest number. By the terms "Periods of employment of smallest number" and "Periods of employment of greatest number" are meant those times, as regards aggregate number of persons employed, when the smallest or greatest number, respectively, was employed. The relative increase or decrease, expressed in amounts and percentages, is also given for one year as compared with the other. In the second section is shown the aggregate number of persons employed, by sex, during each month of the two years specified. It must be borne in mind that the number of persons here enumerated are wage earners only; officers, clerks, or other salaried persons are not included.

WAGES AND EARNINGS.

In this presentation is shown the total amount paid in wages to all wage earners employed for each of the two years, the average yearly earnings per individual without regard to sex or age, and the relative increases or decreases in one year as compared with the other, expressed in

amounts and percentages. The average yearly earnings have been obtained by dividing the sum of the total amount paid in wages by the figures representing the average number of persons employed. In this section is also shown the classified weekly wages paid to employés, ranging from under \$5 per week to \$20 per week and over, and the number of males and females receiving such wage. The returns were made by manufacturers to cover the week during which the largest number of persons was employed. It must be borne in mind that these figures represent the sums paid to wage earners only and do not include amounts paid to officers, clerks, or other salaried persons.

Proportion of Business Done and Days in Operation.

In this presentation is shown the average proportion of business done and the average number of days in operation. Greatest capacity, or maximum production, has been considered 100 per cent, and the percentages given indicate the average proportion of business done by each establishment during each year on the basis stated. The average number of days in operation is based upon the average number of persons employed, the number of days worked in each establishment being multiplied by the figures representing the average number of persons, and the sum divided by the aggregate average number of persons, thus obtaining an average for each industry and for "All Industries." The relative increase or decrease in the later year as compared with the earlier year is given with its equivalent percentage.

ANALYSIS.

ANALYSIS.

The statistical presentations contained in this volume are based upon the returns made by 4,609 identical establishments for each of the years 1895 and 1896.

Wherever the term, "All Industries," is used in this volume, it should be understood as referring only to the seventy-seven classified industries mentioned in the first table (pages 4 to 7), and must not be confounded with the total production of all the establishments engaged in the manufacturing and mechanical industries of the Commonwealth which is shown only once in ten years.

On pages 1 to 104 there will be found general statistics by industries, arranged under the sub-heads of Private Firms and Corporations; Partners and Stockholders; Capital Invested; Stock Used; Goods Made; Persons Employed; Wages Paid; and Proportion of Business Done and Days in Operation. The second section, pages 105 to 148, is devoted to detailed presentations for 15 leading industries, all of the statistical facts relating to each industry being grouped under its respective title. This analysis, however, deals only with the presentations contained in the first section, pages 1 to 104.

PRIVATE FIRMS AND CORPORATIONS; PARTNERS AND STOCKHOLDERS: BY INDUSTRIES.

This presentation will be found on pages 4 to 11. The number of establishments reporting in both of the years considered was 4,609. In 1895 these establishments were managed by 3,529 private firms and 1,036 corporations. In 1896, the number of private firms was reduced to 3,493, a decrease of 1.02 per cent, while the number of corporations increased to 1,070, an advance of 3.28 per cent.

The following table indicates the effect, in the aggregate, of the change from private firms to corporations in 1896 as compared with 1895:

							1	Nu	BER	PERCENTAGES		
PRIVATE !	FIRI	KS AN	тэ Со	POP	RATIO	NS.		1895	1996	1895	1896	
Private firms,								8,529	8,493	77.81	76.55	
Corporations,			•		•	•		1,036	1,070	22.69	23.45	
TOTALS,								4,565	4,563	100.00	100.00	

From the above table it is seen that in 1895 private firms constituted 77.31 per cent of the entire number of establish-In 1896 this percentage decreased to 76.55. figures, as in the past, indicate the prevailing tendency toward the corporate form of management. As before stated, returns These establishments were received from 4,609 establishments. were managed in 1895 by 4,565 private firms and corporations, and in 1896 by 4,563 private firms and corporations. parent discrepancy is fully explained in the head-notes to the tables on pages 4, 5, 8, and 9. Duplications occur so far as private firms and corporations are concerned, for the reason that one firm may carry on two or more establishments in the same or in different towns or industries. The plan adopted in the statistical presentations is to consider each establishment, whether managed in connection with another or not, as a unit, and to credit to each industry its own number of private firms, partners, corporations, and stockholders; but, when considering the total for All Industries, to omit the duplicates. word "establishment," as used in this report, means the factory, mill, or shop from which a report was received, and not the firm or corporation owning or controlling said factory, mill, or shop. There are no duplications so far as the establishments are concerned.

The following table exhibits the number of duplications in private firms, corporations, partners, and stockholders for the years 1895 and 1896:

_	PRIVAT	e Firms	Corpor	RATIONS	PART	Iners	ЗТОСК Н	OLDERS

TOTALS,	11	12	33	84	20	21	2,604	2,648

^{*} Includes three syndicates.

Only the number of private firms and corporations and the number of partners and stockholders are affected by these duplications. The returns relative to capital invested, stock used, goods made, persons employed, wages paid, etc., are made separately for each establishment, and in the tabular presentations are credited to the industry to which they properly belong.

The total number of partners in 1895 was 5,577, falling in 1896 to 5,482, a decrease of 95, or 1.70 per cent. A classification of partners by sex is shown for each year in the following table:

						Nu	MBER	Percentages		
	1	PART	NERS.			1895	1896	1895	1896	
Males, .						5,342	5,283	95.79	95.46

TOTALS,					. [5,577	5,482	100.00	100.00	

[†] Railroads.

The males carrying on these private firms constituted 95.79 per cent of the whole number in 1895 and 95.46 per cent in The number of females rose from 130 to 145, constituting 2.33 per cent of the total number of partners in 1895, and 2.64 per cent in 1896.

The total number of stockholders in 1895 was 44,928, rising in 1896 to 46,143, an increase of 1,215, or 2.70 per cent.

The following table shows a classification of stockholders by sex:

Males,	•							25,682	26,528	57.05	57.49	
Females,						•		14,407	14,750	82.07	31.97	
Banks, tr	ıste	es, e	tc.,					4,889	4,865	10.88	10.54	
Тота	LS,						.	44,928	46,143	100.00	100.00	

There is no great variation shown in the preceding table so far as the sex of the stockholders is concerned, practically 57 per cent being males in each year and 32 per cent females.

The next analysis table exhibits the effect of the change from the private firm to the corporation upon the number of partners in the aggregate and in the average.

			Number									
		Cr	ASSIB	ICAT	ION.						1895	1896
Private firms,	•	•	•								3,529	3,493
Partners, .										.	5,577	5,482
Average numbe	r of p	artn	ers t	0 a p	rivate	firm	, .			.	1.58	1.57
Corporations,										.	1,086	1,070
Stockholders,										.	44,928	46,143
Average numbe	r of	stock	hold	ers t	0 a co	rpor	atio	n, .			43.37	43.12

There is practically no change in the average number of partners to a private firm in 1895 and 1896. The average number of stockholders to a corporation in 1895 was 43.37 and in 1896, 43.12.

The returns relating to private firms, corporations, partners,

and stockholders for 1896 are condensed in the following summary: The returns represent 4,609 establishments found in 77 industries. The establishments are conducted by 3,493 private firms and 1,070 corporations, or, in other words, 76.55 per cent of the establishments are in the hands of private firms and 23.45 per cent in the hands of corporations. The private firms are managed by 5,482 persons, of whom 5,233, or 95.46 per cent, are males, 145, or 2.64 per cent, are females, and 104, or 1.90 per cent are special partners and estates. The corporations are managed by 46,143 persons, of whom 26,528, or 57.49 per cent, are males, 14,750, or 31.97 per cent, are females, and 4,865, or 10.54 per cent, are banks, trustees, etc. The average number of partners to a private firm is 1.57 and the average number of stockholders to a corporation, 43.12.

CAPITAL INVESTED: BY INDUSTRIES.

Comparison is made of the amount of capital invested in each of the 77 industries in 1895 and 1896 in the presentation on pages 14 and 15. The total amount of capital reported by the 4,609 establishments was \$390,932,763 in 1895 and \$373,582,161 in 1896, a decrease in the latter year of \$17,350,602, or 4.44 per cent.

The following industries, 23 in number, show an increase in capital invested in 1896 as compared with 1895:

Awnings, Sails, Tents, etc.
Bicycles, Tricyles, etc.
Brick, Tiles, and Sewer Pipe.
Burial Cases, Caskets, Coffins, etc.
Carpetings.
Chemical Preparations (Compounded).
Corks, Bungs, and Taps.
Drugs and Medicines.
Emery and Sand Paper and Cloth, etc.
Fertilizers.
Flax, Hemp, Jute, and Linen Goods.
Glue, Isinglass, and Starch.
Hose: Rubber, Linen, etc.

Machines and Machinery.

Mixed Textiles.
Polishes and Dressing.
Print Works, Dye Works, and Bleacheries.
Railroad Construction and Equipment.
Scientific Instruments and Appliances.
Sporting and Athletic Goods.
Tobacco, Snuff, and Cigars.
Trunks and Valises.
Whips, Lashes, and Stocks.

The following 54 industries show a decrease in the amount of capital invested in 1896 as compared with 1895:

Agricultural Implements. Arms and Ammunition. Artisans' Tools. Boots and Shoes. Boxes (Paper and Wooden). Brooms, Brushes, and Mops. Buttons and Dress Trimmings. Carriages and Wagons. Cement, Kaolin, Lime, and Plaster. Clocks, Watches, and Jewelry. Clothing. Cooking, Lighting, and Heating Apparatus. Cordage and Twine. Cotton Goods. Cotton, Woollen, and other Textiles. Cravons, Pencils, Crucibles, etc. Dvestuffs. Earthen, Plaster, and Stone Ware. Electrical Apparatus and Appliances. Electroplating. Fancy Articles, etc. Fine Arts and Taxidermy. Fireworks and Matches. Food Preparations. Furniture. Hair Work (Animal and Human). Hosiery and Knit Goods.

Ink. Mucilage, and Paste.

Ivory, Bone, Shell, and Horn Goods. etc. Leather Liquors and Beverages (Not Spirituous). Liquors: Malt, Distilled, and Fermented. Lumber. Metals and Metallic Goods. Models, Lasts, and Patterns. Musical Instruments and Materials. Oils and Illuminating fluids. Paints, Colors, and Crude Chemicals. Paper and Paper Goods. Perfumes, Toilet Articles, etc. Photographs and Photographic Materials. Printing, Publishing, and Bookbinding. Rubber and Elastic Goods. Saddlery and Harness. Shipbuilding. Silk and Silk Goods. Stone Straw and Palm Leaf Goods. Tallow, Candles, Soap, and Grease. Toys and Games (Children's). Wooden Goods.

The percentages of increase range from 0.11 in Print Works, Dye Works, and Bleacheries to 56.17 in Hose: Rubber, Linen, etc. The range of decrease is from 0.22 per cent in Toys and Games (Children's) to 21.91 per cent in Perfumes, Toilet Articles, etc.

Woollen Goods.

Worsted Goods.

The leading industries are brought forward into the following table:

Industr	IES.		Number of Estab- lishments		NT OF INVESTED	Increase (+), or Decrease (-), in 189		
		 	Con- sidered	1895	1896	Amounts	Percent-	
Boots and shoes,			605	\$23,172,349	\$19,990,145	-\$3,182,204	-13.73	
Carpetings, .			12	6,008,497	6,020,485	+11,988	+0.20	
Cotton goods, .			169	116,141,614	112,902,817	-3,238,797	-2.79	

Indu stries.	Number of Estab- lishments		NT OF INVESTED	Increase (+), or Decrease (-), in 1896		
	Con- sidered	1895	1896	Amounts	Percent- ages	
Leather,	. 148	\$8,479,094	\$7,329,970	-\$1,149,124	-13.55	
Machines and machinery, .	. 871	23,167,426	23,783,634	+566,208	+2.44	
Metals and metallic goods,	. 382	19,177,940	17,633,004	-1,544,936	8.06	
Paper and paper goods, .	. 128	24,682,633	23,670,894	-1,011,739	-4.10	
Woollen goods,	. 122	21,932,897	19,186,201	-2,746,696	-12.52	
Worsted goods,	. 27	15,700,666	15,343,809	-356,857	-2.27	
Other industries,	. 2,655	132,469,647	127,771,202	—4,698,44 5	8.55	
ALL INDUSTRIES, .	. 4,609	\$390,932,763	\$373,582,161	-\$17,350,602	-4.44	

The industries mentioned in detail in the above table are the principal industries of the State. The capital invested in the establishments returned in them was \$258,463,116 in 1895 and \$245,810,959 in 1896, or 66.11 per cent of the total capital for All Industries as returned for the year 1895, and 65.80 per cent in 1896. With the two exceptions of Carpetings and Machines and Machinery, a decrease in the amount of capital invested is shown for each of the nine leading industries.

In order that unwarranted deductions may not be made regarding increase or decrease in investment, as shown by these figures, it may be necessary to call attention, as in previous years, to the fact that the term, "capital," as used in these reports, does not mean merely cash capital or capital stock, but includes all forms of capital devoted to production, such as cash, value of buildings, land, machinery and fixtures, and stock on hand or in process of manufacture; therefore, the aggregate amounts given as capital invested in the different industries, include the actual capital of all forms found in the industry at the time of making the return, and it is obvious that some of the elements included are variable from year to year. A small amount of stock on hand or in process of manufacture at the time the return is made would have its effect in showing diminished capitalization, without, of course, affecting the condition of the industry; and, on the other hand, an investment in stock purchased in a favorable market, the same being held at the time of making the return, would render the amount of capital invested relatively larger than would be found at a time when the stock on hand was comparatively light.

STOCK USED: BY INDUSTRIES.

The term "stock used" includes all kinds of materials used in the establishment, whether entering into the fabric article or consumed in the processes necessary to the production of goods.

On pages 18 and 19 a comparison of the value of stock used in the 4,609 establishments making returns in each of the years 1895 and 1896 is shown. The table in detail requires no special analysis. In All Industries the total value of stock used was \$318,753,542 in 1895 and \$302,272,325 in 1896, a decrease of \$16,481,217, or 5.17 per cent.

For the purpose of comparing the nine leading industries, we present the following table:

Industries.	Number of Estab- lishments	VALUE OF 8	STOCK USED	Increase (+), or , in 1896	
	Con- sidered	1895	1896	Amounts	Percent- ages	
Boots and shoes,	. 605	\$55,559,505	\$53,883,477	-\$1,676,028	-3.02	
Carpetings,	. 12	4,336,556	3,302,865	-1,083,691	-23.84	
Cotton goods,	. 169	46,244,435	50,297,985	+4,053,550	+8.77	
Leather,	. 143	15,746,203	13,127,769	-2,618,434	-16.63	
Machines and machinery, .	. 871	9,931,227	10,350,938	+419,711	+4.23	
Metals and metallic goods,	. 882	11,021,656	10,626,329	-395,327	-3.59	
Paper and paper goods, .	. 128	14,830,407	13,625,290	-1,205,117	-8.13	
Woollen goods,	. 122	14,410,166	11,393,040	-8,017,126	-20.94	
Worsted goods,	. 27	13,133,003	10,861,550	-2,271,453	17.80	
Other industries,	. 2,655	133,540,384	124,803,082	-8,787,802	-6.54	
ALL INDUSTRIES, .	. 4,609	\$318,753,542	\$302,272,325	-\$16,481,217	-5.17	

The value of the stock used in 1895 in the establishments classified under the nine leading industry heads was \$185,213,-158, and in 1896, \$177,469,243, representing 58.11 per cent of the total stock used in All Industries in 1895, and 58.71 per cent in 1896.

GOODS MADE: BY INDUSTRIES.

The presentation on pages 22 and 23 shows a comparison of the value of goods made in the establishments supplying returns for the years 1895 and 1896. The total value of goods made and work done in the 4,609 establishments was, in 1895, \$569,097,021, and in 1896, \$537,720,294, a decrease in the last named year of \$31.376.727, or 5.51 per cent.

The following industries exhibit a decrease greater than that shown for All Industries:

Buttons and Dress Trimmings. Carpetings.

Carriages and Wagons.

Cement, Kaolin, Lime, and Plaster. Chemical Preparations (Compound-

ed).

Clocks, Watches, and Jewelry.

Clothing.

Cotton, Woollen, and other Textiles. Dvestuffs.

Earthen, Plaster, and Stone Ware. Electrical Apparatus and Appliances.

Fertilizers. Furniture.

Glass.

Hair Work (Animal and Human).

Hosiery and Knit Goods.

Ink, Mucilage, and Paste.

Ivory, Bone, Shell, and Horn Goods, etc.

Leather.

Liquors and Beverages (Not Spirituous).

Lumber.

Mixed Textiles.

Musical Instruments and Materials.

Paints, Colors, and Crude Chemicals.

Paper and Paper Goods.

Perfumes, Toilet Articles, etc.

Print Works, Dye Works, and Bleacheries.

Rubber and Elastic Goods.

Scientific Instruments and Appliances.

Shipbuilding.

Silk and Silk Goods.

Tallow, Candles, Soap, and Grease.

Tobacco, Snuff, and Cigars.

Trunks and Valises.

Whips, Lashes, and Stocks.

Wooden Goods.

Woollen Goods.

Worsted Goods.

In the following table we give the value of goods made and work done for the nine leading industries:

Industries.	Number of Estab- lishments	VALUE OF G		Increase (-)	+), or , in 1896
	Con- sidered	1895	1896	Amounts	Percent- ages
Boots and shoes,	. 605	\$89,938,212	\$87,945,168	-\$1,993,044	-2.22
Carpetings,	. 12	7,213,798	5,674,637	-1,539,161	-21.34
Cotton goods,	. 169	89,615,751	87,148,004	-2,469,747	-2.76
Leather,	. 143	22,379,841	19,041,544	-3,338,297	-14.92
Machines and machinery, .	. 871	26,027,029	28,489,920	+2,462,891	+9.46
Metals and metallic goods,	. 382	24,484,118	23,472,316	1,011,802	-4.13
Paper and paper goods, .	. 123	25,028,375	23,044,582	-1,983,793	—7.93
Woollen goods,	. 122	24,899,606	19,662,182	-5,237,424	-21.03
Worsted goods,	. 27	20,599,046	17,827,246	-2,771,800	-13.46
Other industries,	. 2,655	238,911,245	225,416,695	—13,494,5 50	-5.65
ALL INDUSTRIES, .	. 4,609	\$569,097,021	\$537,720,294	-\$31,376,727	-5.51

In 1895, the aggregate value of goods made and work done in these nine leading industries was \$330,185,776, and in 1896, \$312,303,599, representing 58.02 per cent of the total value of goods made and work done in All Industries in 1895, and 58.08 per cent in 1896. Only one of these leading industries, namely, Machines and Machinery, shows an increase in product.

In the following table we present the increase or decrease in value of goods made and work done each year, as shown by former published reports, beginning with the year 1886:

	Co)MPA	BATIV	e Yi	čars.		Number of Establish- ments Considered in Each Year	INCREASE (+), OR DECREASE (- IN VALUE OF GOODS MADE A WORK DONE IN EACH YEAR COMPARED WITH THE PREVIO YEAR				
							Compared	Amounts Percentag				
1886, 1887,							1,027	+\$13,919,859	+5.29			
1887, 1888,							1,140	+11,168,095	+3.61			
1888, 1889,			•				1,364	+9,653,992	+2.45			
1889, 1890,							3,041	+22,838,970	+4.87			
1890, 1891,							3,745	+8,068,053	+1.33			
1891, 1892,							4,473	+33,180,865	+5.37			
1892, 1893,							4,397	-51,793,852	-8.10			
1893, 1894,							4,093	-56,793,448	-10.27			
1894, 1895,							3,629	+43,048,021	+9.18			
1895, 1896,							4,609	-31,376,727	-5.51			

The above table shows an increase in value of goods made and work done in 1887 as compared with 1886 of 5.29 per cent; in 1888 as compared with 1887, an increase of 3.61 per cent; in 1890 as compared with 1889, an increase of 2.45 per cent; in 1891 as compared with 1890, an increase of 4.37 per cent; in 1892 as compared with 1891, an increase of 5.37 per cent; in 1893 as compared with 1891, an increase of 5.37 per cent; in 1894 as compared with 1893, a decrease of 8.10 per cent; in 1895 as compared with 1894, an increase of 9.18 per cent; in 1896 as compared with 1895, a decrease of 5.51 per cent. The number of establishments reporting should be taken into consideration in comparing these returns, and it should be borne in mind that in any two comparative years, the returns made were those of identical establishments.

PERSONS EMPLOYED: BY INDUSTRIES.

The statistical presentations relative to persons employed will be found upon pages 25 to 64. In the analysis table which follows, we bring forward the figures representing the average number of persons employed during the years 1895 and 1896 for the nine leading industries, for other industries, and for All Industries in the aggregate:

Indust ries			Number of Estab- lishments	AVERAGE N PERSONS E DURING T	MPLOYED	Increase (+), or Decrease (-), in 1896		
			Con- sidered	1895	1896	Number	Percent- ages	
Boots and shoes, .			605	43,180	42,263	-917	-2.12	
Carpetings,			12	4,616	4,232	384	-8.32	
Cotton goods,			169	79,795	78,058	-1,737	-2.18	
Leather,			148	7,168	6,347	-821	-11.45	
Machines and machinery,			871	16,933	18,082	+1,149	+6.79	
Metals and metallic goods	,		382	14,694	14,242	-452	-3.08	
Paper and paper goods,			123	11,647	11,112	535	-4.59	
Woollen goods,			122	16,189	13,671	-2,468	-15.29	
Worsted goods,			27	12,297	11,818	—979	—7.96	
Other industries, .		•	2,655	101,121	99,221	1,900	-1.88	
ALL INDUSTRIES,			4,609	307,590	298,546	-9,044	-2.94	

The final line of the table indicates that in the 4,609 establishments making return, an average number of 307,590 persons were employed in All Industries during the year 1895, and 298,546 persons in 1896, a decrease of 9,044 persons, or 2.94 per cent. All the leading industries, except Machines and Machinery, show a decrease in 1896 as compared with 1895, the largest percentage of decrease being found in Woollen Goods, in which 16,139 persons, on an average, were employed in the 122 establishments making return in 1895 and 13,671 persons in 1896, a decrease of 15.29 per cent.

The table which follows gives the number of persons employed at the periods of employment of the smallest number in the nine leading industries:

Industries				Number of Estab- lishments	SMAL NUMBER OF EMPL	PERSONS	OR DECRE.	se (十), ase (一), in 96
				Con- sidered	1895	1896	Number	Percent- ages
Boots and shoes, .				605	83,362	32,679	683	-2.05
Carpetings,				12	4,851	8,417	-934	-21.47
Cotton goods,				169	73,778	66,044	-7,734	-10.48
Leather,				143	5,737	5,018	—719	12.53
Machines and machinery,				371	13,449	14,259	+810	+6.02
Metals and metallic goods	,			382	12,128	11,740	-388	-3.20
Paper and paper goods,				123	10,356	9,514	-842	-8.13
Woollen goods,				122	13,800	10,822	-2,978	-21.58
Worsted goods,				27	10,899	6,335	-4,564	-41.88
Other industries, .	•	•		2,655	80,916	75,282	5,634	6.96
ALL INDUSTRIES,				4,609	258,776	235,110	-23,666	-9.15

The final line of the table indicates that 258,776 persons were employed at the periods of employment of the smallest number in 1895, and 235,110 persons at the corresponding periods in 1896, a decrease of 23,666 persons, or 9.15 per cent. All of the leading industries, except Machines and Machinery, show a decrease, the highest percentage of decrease being found in Worsted Goods.

A similar comparison for persons employed at the periods of employment of the greatest number is shown in the following table:

Industries				Estab- lishments	GREA NUMBER OF EMPL	PERSONS	Increase (+), or Decrease (), in 1896	
			 	Con- sidered	1895	1896	Number	Percent- ages
Boots and shoes,				605	52,063	51,998	65	-0.12
Carpetings,				12	4,794	4,791	-3	-0.06
Cotton goods,				169	83,545	86,494	+2,949	+3.58
Leather,				143	8,502	8,046	456	-5.36
Machines and machinery,	• .			371	20,228	21,348	+1,120	+5.54
Metals and metallic goods,	,			382	17,138	16,535	603	-3.52
Paper and paper goods,				123	12,558	12,243	-315	-2.51
Woollen goods,				122	17,622	16,701	-921	5.23
Worsted goods,				27	13,273	13,618	+345	+2.60
Other industries, .		•		2,655	122,192	121,666	526	-0.43
All Industries,		•		4,609	351,915	353,440	+1,525	+0.43

As indicated by the figures in the last line of this table, 351,915 persons were employed in 1895 at the periods of employment of the greatest number, and at the corresponding periods in 1896, 353,440 persons were employed, an increase of 1,525, or 0.43 per cent. Three industries, namely, Cotton Goods, Machines and Machinery, and Worsted Goods, exhibit an increase in the greatest number of persons employed.

For the purpose of exhibiting the range of employment and unemployment year by year since 1886, as shown by these annual reports, the following table of percentages is given:

								PE	BCENTAGES	
	Сомтр	ARAT	(VE Y	EARS	•		Number of Estab- lishments Con- sidered	Persons Employed at Periods of Employ- ment of Smallest Number of Persons Employed at Periods of Employment of Greatest Number	Range (Unemployed at some time During the Year)	Persons Employed at Periods of Employment of Greatest Number
1886, .				•			1,027	77.38	22.67	100.00
1887, .							1,027	78.57	21.43	100.00
1887, .							1,140	78.72	21.28	100.00
1888, .		•	•		•	•	1,140	77.18	22.82	100.00
1888, .							1,364	76.64	23.36	100.00

1891, .							4,478	77.52	22.48	100.00
1892, .			•				4,473	76.90	28.10	100.00
1892, .							4,397	77.66	22.84	100.00
1893, .			•				4,397	64.88	85.62	100.00
1893, .							4,093	65.17	34.83	100.00
1894, .			•				4,093	66.55	88.45	100.00
1894, .							3,629	67.11	32.89	100.00
1895, .		•					3,629	74.40	25.60	100.00
1895, .							4,609	73.53	26.47	100.00
1896, .							4,609	66.52	88.48	100.00

In order that these percentages may have their full effect, let it be borne in mind that if no persons were out of employment at any time during the year, in the establishments making return in the different industries, the percentage of persons

employed throughout the year would stand at 100; but, inasmuch as at the periods of employment of the smallest number, less persons are employed than at the periods of employment of the greatest number, the difference between the number of persons employed at these two periods may be represented by a percentage which indicates the number of persons unemployed at some time during the year, the duration of unemployment, of course, not being determined. This percentage is shown in the table in the third column.

It will be noted that from 1886 to 1892, the percentage of persons unemployed at some time during the year did not reach one-fourth of the greatest number of persons employed, while from 1893 to 1896 the percentages of unemployment materially increased, in several instances exceeding one-third of this greatest number.

The following table, brought forward from the presentation relating to persons employed by months, pages 37 to 63, exhibits the aggregate number of persons employed in each specified month together with the average number of persons employed per month in each of the 4,609 establishments:

Months.							AGGREGATE PERSONS EMPLO SPECIFIEI	OYED IN EACH	AVERAGE NUMBER OF PERSONS EMPLOYED IN EACH ESTABLISHMENT IN EACH SPECIFIED MONTH		
							1895	1896	1895	1896	
January,				•			299,452	308,497	6 5	67	
February,							800,105	811,113	65	68	
March,							305,069	311,143	66	68	
April, .							306,263	309,668	66	67	
Мау, .							810,602	810,023	67	64	
June, .							310,514	301,144	67	65	
July, .							303,535	285,868	66	62	
August,							306,554	276,446	67	60	
September	, .						310,833	281,297	67	61	
October,							312,262	292,767	68	64	
November	, .						813,054	295,520	68	64	
December,			•		•	:	310,655	298,681	67	65	

No large variation in the number of persons employed month by month is shown in the preceding table, the average number of persons per establishment being practically the same, except for the months of July, August, and September of 1896.

To indicate more fully the range of unemployment, as shown by percentages, the following table for All Industries is presented:

	1	Mort	HS.			PERCENT EMPLOYMENT MONTHS 6	DUBING THE	PEBCRUTAGES OF UNEMPLOYMENT DURING T MONTHS SPECIFIED			
						1895	1896	1895	1996		
January,	•					95.66	99.15	4.84	0.85		
February,					-	95.86	99.99	4.14	0.01		
March,						97.45	100.00	2.55	-		
April, .					. '	97.88	99.58	2.17	0.47		
May, .					- 1	99.22	99.64	0.78	0.36		
June, .					-	99.19	96.79	0.81	8.21		
July, .		•			. !	96.96	91.88	8.04	8.12		
August,						97.92	88.85	2.08	11.15		
September	, .				•	99.29	90.41	0.71	9.59		
October,					. 1	99.75	94.09	0.25	5.91		
November	, .				. 1	100.00	94.98	-	5.02		
December,					- 1	99.23	95.99	0.77	4.01		

The number of persons employed in November, 1895 (this being the month of employment of the greatest number in that year), is considered 100 per cent; and the number of persons employed in March, 1896 (this being the month in which the greatest number of persons was employed in that year), is also considered 100 per cent. The percentages of unemployment during the other months are obtained by finding the difference between the percentages of employment appearing each month and 100 per cent. For instance, the smallest number of persons employed in 1895 is found in the month of January; the number employed in the month of November, as has been explained, constituted 100 per cent; the number employed in the month of January is represented by 95.66 per cent, the percentage of unemployment being the difference between 95.66 and 100 per cent, or 4.34 per cent. Again, the smallest number of persons employed in any single month in 1896 is found in August, the percentage indicating the smallest number being 88.85; the difference between this 166

and 100, namely, 11.15, indicates the percentage of unemployment in that month.

The reader may find it interesting to make similar comparisons for the other industries shown in the presentation, pages 37 to 63.

WAGES PAID: BY INDUSTRIES.

The statistical matter under this subject comprises three presentations, pages 65 to 98. The first relates to the total amount paid in wages in the 4,609 establishments during the years 1895 and 1896, the second to the average yearly earnings of each of the employes in these same establishments during the years specified, and the third to classified weekly wages.

WAGES PAID.

The facts relating to the total amount of wages paid are given on pages 67 and 68. In the following table are brought forward the figures for the nine leading industries:

Industries.	Numb Esta lishm	er of IN W	OUNT PAID AGES THE YEAR	Increase (+), or Decrease (-), in 1896		
	Cor		1896	Amounts	Percent- ages	
Boots and shoes,	. 6	05 \$20,838,632	\$20,834,331	-\$4,301	_0.02	
Carpetings,		1,709,689	1,443,472	266,217	-15.57	
Cotton goods,	. 1	69 26,234,125	25,865,194	-368,931	-1.41	
Leather,	. 1	43 3,448,203	2,984,515	-463,688	-13.45	
Machines and machinery, .	. 3	71 9,072,876	9,731,509	+658,633	+7.26	
Metals and metallic goods, .	. 3	82 7,479,648	7,218,118	-261,525	-3.50	
Paper and paper goods, .	. 1	23 4,723,678	4,476,285	-247,393	-5.24	
Woollen goods,	. 1	22 5,987,401	4,963,615	-1,023,786	-17.10	
Worsted goods,	.	27 4,490,457	8,848,327	-642,130	-14.30	
Other industries,	. 2,6	55 46,860,847	45,548,006	-1,312,841	-2.80	
All Industries,	. 4,6	09 \$130,845,551	\$126,913,372	-\$3,932,179	-3.01	

In the 4,609 establishments making return, the total amount paid in wages during the year 1895 was \$130,845,551, and in 1896, \$126,913,372, showing a loss of \$3,932,179, or 3.01 per cent. Only one industry of the above nine, namely, Machines and Machinery, shows an increase. The largest percentages of decrease are found in Woollen Goods, Carpetings, Worsted Goods, and Leather.

AVERAGE YEARLY EARNINGS.

The average yearly earnings in the nine leading industries are brought forward in the following table from the presentation on pages 69 and 70:

Industries.		٠.	Number of Estab- lishments		rage Earnings	OR DECREA	INCREASE (+), OR DECREASE (-), IN 1896		
	 		Con- sidered	1895	1896	Amounts	Percent-		
Boots and shoes,			605	\$482.60	\$492.97	+\$10.37	+2.15		
Carpetings,			12	370.38	341.09	-29.29	-7.91		
Cotton goods,			169	328.77	331.36	+2.59	+0.79		
Leather,			143	481.06	470.22	10.84	-2.25		
Machines and machinery,			871	535.81	538.19	+2.38	+0.44		
Metals and metallic goods,			382	509.03	506.82	-2.21	-0.43		
Paper and paper goods, .			123	405.57	402.83	-2.74	-0.68		
Woollen goods,			122	370.99	363.08	—7.91	-2.13		
Worsted goods,			27	865.17	340.02	-25.15	-6.89		
Other industries,			2,655	463.41	459.06	-4.35	-0.94		
ALL INDUSTRIES, .			4,609	\$425.39	\$425.16	-\$0.23	-0.05		

The averages in the preceding table are obtained by dividing the total amount of wages paid in each industry, as presented in the table on pages 67 and 68, by the aggregate average number of persons employed, without discrimination as to sex or age. Such an average is, of course, only useful in comparison with averages similarly obtained. The final line of this table reproduces the figures for All Industries. It will be noted that a very slight difference is seen when comparing 1896 with 1895, indicating that each of the employés received, on an average, \$425.39 in 1895, and \$425.16 in 1896, a decrease of 23 cents, or 0.05 per cent. Three industries, namely, Boots and Shoes, Cotton Goods, and Machines and Machinery, show increase in average yearly earnings.

CLASSIFIED WEEKLY WAGES.

Actual wage conditions in the different industries may, perhaps, be more accurately seen from the classified wage presentation, pages 71 to 97, than from aggregate or average

tables of wages. The following table brings forward such a classified wage presentation, with percentages for All Industries:

•									PERCE	TAGES		
CLASSIFIC	ATION	O	WE	KKLY	WAG	3E.		18	95	1896		
								Males	Females	Males	Females	
Under \$5,								38.17	61.83	37.68	62.32	
\$5 but under	\$ 6,						.	37.04	62.96	36.73	63.27	
\$6 but under	\$7,						.	47.96	52.04	48.69	51.31	
\$7 but under	\$ 8,						. 1	58.69	41.31	57.76	42.24	
\$8 but under	\$ 9,							66.86	33.14	66.90	33.10	
\$9 but under	\$10,							80.58	19.42	81.12	18.88	
\$10 but under	\$12,						• 1	86.81	13.19	86.63	13.37	
\$12 but under	\$15,						•	93.68	6.32	94.03	5.97	
\$15 but under	\$2 0,						.	97.48	2.52	97.23	2.77	
\$20 and over,							• 1	99.21	0.79	98.95	1.05	
TOTALS,							. [66.51	33.49	66.35	33.65	

This table indicates that of the employés receiving less than \$5 per week, 38.17 per cent were males in 1895 and 37.68 per cent in 1896. The proportion of females in this class was 61.83 per cent in 1895 and 62.32 per cent in 1896. portion of males in each wage class increases after the \$5 but under \$6 wage limit is passed while the proportion of females correspondingly declines.

The fluctuations in the different wage classes are shown for All Industries in the following table:

						PERCE	NTAGES			
CLASSIFICATION O	F W	EEKI	.Y		1895		1896			
WAGE.				Males	Females	Totals	Males	Females	Totals	
				100.00	100.00	100.00	100.00	100.00	100.00	
Under \$5,				8.39	26.99	14.62	8.22	26.82	14.48	
\$5 but under \$6,				5.68	19.17	10.20	5.64	19.15	10.19	
\$6 but under \$7,				8.57	18.47	11.89	8.82	18.33	12.02	
\$7 but under \$8,				9.55	13.36	10.83	9.55	13.77	10.97	
\$8 but under \$9,				9.16	9.01	9.11	9.51	9.27	9.43	
\$9 but under \$10,				12.34	5.91	10.18	12.35	5.67	10.10	
\$10 but under \$12,			.	14.10	4.25	10.80	13.88	4.22	10.63	
\$12 but under \$15,			.	16.07	2.16	11.41	15.93	2.00	11.24	
\$15 but under \$20,				12.17	0.62	8.30	12.22	0.69	8.34	
\$20 and over			. 1	3.97	0.06	2.66	3.88	0.08	2,60	

In this table, the total number of males, the total number of females, and the total number of employés of both sexes are each considered as representing 100 per cent, and the number of employés in each wage class constitute parts of this aggregate, or in other words, are represented by percentages which totalize to 100. That class in which the proportion of sexes is about the same in each year is the class receiving \$8 but under \$9 per week. The percentages of males in this class in 1895 and 1896 were 9.16 and 9.51 respectively, and of females, 9.01 and 9.27, respectively. The percentages of males and females do not materially vary in either year.

PROPORTION OF BUSINESS DONE: BY INDUSTRIES.

The statistical matter relating to this subject, which covers proportion of business done and average number of days in operation, will be found on pages 99 to 104.

Proportion of Business Done.

In computing the proportion of business done, maximum production, that is to say, the greatest amount of goods that can be turned out with the present facilities, is considered 100 per cent. In the 4,609 establishments making return in each year, the average proportion of business done in 1895 is represented by 62.56 per cent and in 1896 by 58.98 per cent.

The following table reproduces the average proportion of business done for the nine selected industries:

Industries	١.				Number of Estab- lishments	POR	BE PRO- TION ESS DONE	Increase (+), or Decrease (-), in 1896		
					Con- sidered	1895	1896	Proportion	Percent- ages	
Boots and shoes, .					605	62.04	58.61	-3.43	-5.53	
Carpetings,					12	73.50	68.25	5.25	-7.14	
Cotton goods,					169	87.22	77.33	-9.89	-11.34	
Leather,					148	66.51	58.35	-8.16	-12.27	
Machines and machinery,					371	59.08	56.78	-2.30	-3.89	
Metals and metallic goods	,				382	61.90	59.10	-2.80	-4.52	
Paper and paper goods,					123	73.96	70.77	-3.19	-4.31	
Woollen goods,					122	82.81	69.50	-13.31	-16.07	
Worsted goods,					27	85.56	70.30	-15.26	-17.84	
Other industries, .					2,655	59.74	57.03	-2.71	-4.54	
ALL INDUSTRIES,					4,609	62.56	58.98	-3.58	-5.72	

It will be noted from an examination of the preceding table that production in the nine leading industries in 1896 ranged from about one-half to nearly eight-tenths of the full capacity of the establishments and in comparison with 1895 each industry shows a decline in average proportion of business done.

DAYS IN OPERATION.

The statistical presentation relating to this division of the subject will be found on pages 102 and 103. The average number of days in operation for All Industries in 1895 was 291.56, and in 1896, 279.43, a decrease of 12.13 days, or 4.16 per cent.

In the following table we bring forward the facts for the nine leading industries:

Industries	١.		Number of Estab- lishments	of l	NUMBER DAYS RATION	Increase (+), or Decrease (-), in 1896	
			 Con- sidered	1895	1896	Days	Percent- ages
Boots and shoes, .			605	284.64	282.30	-2.34	-0.82
Carpetings,			12	299.63	241.14	-58.49	-19.52
Cotton goods,			169	297.36	279.53	-17.83	-6.00
Leather,			143	294.73	286.13	-8.60	-2.92
Machines and machinery,			371	297.55	292.16	-5.39	-1.81
Metals and metallic goods	,		382	284.14	278.79	-5.35	-1.88
Paper and paper goods,			123	287.34	272.56	-14.78	-5.14
Woollen goods,			122	292.19	259.65	-32.54	-11.14
Worsted goods,			27	305.64	279.35	-26.29	-8.60
Other industries, .			2,655	288.09	280.60	-7.49	-2.60
ALL INDUSTRIES,			4,609	291.56	279.43	-12.13	-4.16

It will be noted that each of these nine industries exhibits a falling off in the number of days in operation in 1896 as compared with 1895, Carpetings leading, with a loss of 58.49 days.

The total number of working days in 1896, exclusive of 52 Sundays and 7 holidays, was 307. The average number of working days in a month was, therefore, 25.58. The following industries show a loss of more than one month but less than two months, on an average, in 1896 as compared with 1895:

Dyestuffs.
Earthen, Plaster, and Stone Ware.
Glass.
Mixed Textiles.

Silk and Silk Goods. Trunks and Valises. Woollen Goods. Worsted Goods. Carpetings is the only industry which shows a loss of more than two months, on an average, in 1896 as compared with 1895.

Two industries, namely, Fireworks and Matches and Lumber, show a gain of more than one month but less than two months, on an average, in 1896 as compared with 1895.

SUMMARY.

The tables which follow bring before the reader the leading factors relative to the condition of the various industries in 1895 and 1896. For convenience in reviewing, the 77 industries are separated into classes. The first class comprises those industries which show an increase in the average number of days in operation and in the average proportion of business done in 1896 as compared with 1895; the second class, those industries which show an increase in the average number of days in operation but a decrease in the average proportion of business done; the third class, those industries which show a decrease in the average proportion of business done; and the fourth and last class, those industries which show a decrease in the average number of days in operation and in the average proportion of business done.

In the analysis of these classes, the percentages of increase or decrease in the proportion of business done are based upon the total productive capacity of the establishments and not upon the aggregate value of goods manufactured in 1896.

The table relating to the first class follows:

		Incre	Increase (+), or Decrease (-), in 1896 as Compared with 1895 in—						
Industries.		Average Number of Days in Operation	Average Proportion of Busi- ness Done	Average Yearly Earnings	Average Number of Persons Employed	"Range"			
Arms and ammunition,		+4.52	+2.58	+\$31.58	_64	+112			
Brick, tiles, and sewer pipe,		+14.46	+2.66	-2.14	+62	+104			
Fireworks and matches,		+37.98	+2.25	-15.19	+11	-20			
Printing, publishing, and bookbinding	, .	+10.11	+0.17	+6.65	_7	-41			
Railroad construction and equipment,		+0.59	+6.94	+21.17	+420	+314			
Shipbuilding,		+8.16	+1.49	+4.22	+6	+14			

The industries which are grouped in this table are those which show an increase in the average number of days in operation and also in the average proportion of business done. Four of these industries show an increase in average yearly earnings, namely, Arms and Ammunition; Printing, Publishing, and Bookbinding; Railroad Construction and Equipment; and Shipbuilding. An increase in average number of persons employed is shown for Brick, Tiles, and Sewer Pipe; Fireworks and Matches; Railroad Construction and Equipment; and Shipbuilding.

The difference in the range of unemployment is greater in 1896 than in 1895 in Arms and Ammunition; Brick, Tiles, and Sewer Pipe; Railroad Construction and Equipment; and Shipbuilding; it is narrower in Fireworks and Matches and Printing, Publishing, and Bookbinding.

Industries of the second class are grouped in the following table:

	Increase (+), or Decrease (-), in 1896 as Compared with 1895 in-						
Industries.	Average Number of Days in Operation	Average Proportion of Busi- ness Done	Average Yearly Earnings	Average Number of Persons Employed	"Range"		
Cement, kaolin, lime, and plaster,	+10.65	-0.30	+\$8.29	-1	+13		
Cooking, lighting, and heating apparatus,	+3.12	-2.86	-23.78	+89	138		
Drugs and medicines,	+1.95	-4.63	-4.03	-23	-39		
Electroplating,	+4.74	-3.66	+35.38	+9	+9		
Fertilizers,	+1.84	-1.66	-1.39	+2	*_		
Hose: rubber, linen, etc.,	+1.45	-4.50	-42.85	+212	+186		
Lumber,	+25.76	-6.18	+13.65	-40	-21		
Oils and illuminating fluids,	+0.27	-1.67	-10.66	+14	+54		
Polishes and dressing,	+4.94	-3.39	-35.81	*-	-36		
Scientific instruments and appliances, .	+4.18	-3.25	+25.25	+30	+14		
Toys and games (children's),	+0.23	-2.37	-16.28	+26	*-		

^{*} No change.

The above industries are those which show an increase in the average number of days in operation and a decrease in the average proportion of business done. Of these industries, the following show an increase in average yearly earnings:

Cement, Kaolin, Lime, and Plaster. Scientific Instruments and Appli-Electroplating. ances.

Lumber. Those showing a decrease in average yearly earnings are:

Cooking, Lighting, and Heating Apparatus. Drugs and Medicines. Fertilizers. Hose: Rubber, Linen, etc.
Oils and Illuminating Fluids.
Polishes and Dressing.
Toys and Games (Children's).

In Polishes and Dressing, no change in the average number of persons employed in 1896 as compared with 1895 appears; and, with the further exception of Cement, Kaolin, Lime, and Plaster; Drugs and Medicines; and Lumber, an increase is shown for all the industries in this class.

The range of unemployment was wider in 1896 than in 1895 in but five industries in this class, namely, Cement, Kaolin, Lime, and Plaster; Electroplating; Hose: Rubber, Linen, etc.; Oils and Illuminating Fluids; and Scientific Instruments and Appliances. In Fertilizers and Toys and Games (Children's), there was no variation in the range of unemployment in 1896, while a narrower range was shown for Cooking, Lighting, and Heating Apparatus; Drugs and Medicines; Lumber; and Polishes and Dressing.

Industries of the third class are presented in the following table:

	Increa	SE (+), OE COMPARI	DECREASE D WITH 18	(—), IN 1 8 895 IN —	896 AS
Industries.	Average Number of Days in Operation	of Busi-	Average Yearly Earnings	Average Number of Persons Employed	"Range"
Agricultural implements,	-4.19	+0.38	-\$23.12	+25	+148
Cordage and twine,	-4.92	+1.69	+13.21	+91	+134
Corks, bungs, and taps,	-5.57	+8.33	-2.35	+7	+20
Earthen, plaster, and stone ware,	-29.35	+2.42	-16.34	-21	- -9
Electrical apparatus and appliances, .	-1.34	+1.66	-14.58	-230	-107
Fancy articles, etc.,	-7.60	+1.37	+4.74	-5	+38
Fine arts and taxidermy,	-4.18	+5.67	-12.67	+5	-2
Flax, hemp, jute, and linen goods,	-22.85	+2.80	-20.36	+3	+211
Glue, isinglass, and starch,	-17.99	+3.09	-31.76	+50	+116
Liquors: malt, distilled, and fermented, .	-0.98	+1.04	+2.33	+68	—13
Saddlery and harness,	-8.48	+0.44	-7.95	-17	+10

The above industries are those which show a decrease in the average number of days in operation but a greater average proportion of business done. With the exception of three indus-

tries, namely, Cordage and Twine; Fancy Articles, etc.; and Liquors: Malt, Distilled, and Fermented, a decrease is shown in average yearly earnings. An increase in the average number of persons employed is shown for all of the industries in this class, except Earthen, Plaster, and Stone Ware; Electrical Apparatus and Appliances; Fancy Articles, etc.; and Saddlery and Harness.

The range of unemployment was wider in Agricultural Implements; Cordage and Twine; Corks, Bungs, and Taps; Earthen, Plaster, and Stone Ware; Fancy Articles, etc.; Flax, Hemp, Jute, and Linen Goods; Glue, Isinglass, and Starch; and Saddlery and Harness and narrower in Electrical Apparatus and Appliances; Fine Arts and Taxidermy; and Liquors: Malt, Distilled, and Fermented.

The final table presents the industries of the fourth class:

The industries grouped in the above table show a decrease both in average number of days in operation and in average proportion of business done. All of the nine leading industries are included in this class. The following industries show an increase in average yearly earnings:

Artisans' Tools.
Bicycles, Tricycles, etc.
Boots and Shoes.
Brooms, Brushes, and Mops.
Burial Cases, Caskets, Coffins, etc.
Chemical Preparations (Compounded).
Cotton Goods.
Crayons, Pencils, Crucibles, etc.
Food Preparations.

Machines and Machinery.
Paints, Colors, and Crude Chemicals.
Perfumes, Toilet Articles, etc.
Silk and Silk Goods.
Stone.
Straw and Palm Leaf Goods.
Tobacco, Snuff, and Cigars.
Trunks and Valises.
Wooden Goods.

Those showing a decrease in average yearly earnings are:

Awnings, Sails, Tents, etc. Boxes (Paper and Wooden). Buttons and Dress Trimmings. Carriages and Wagons. Clocks, Watches, and Jewelry.

176 STATISTICS OF MANUFACTURES. [Pub. Doc.

Clothing.
Cotton, Woollen, and other Textiles.
Dyestuffs.
Emery and Sand Paper and Cloth, etc.
Furniture.
Glass.
Hair Work (Animal and Human).
Hosiery and Knit Goods.
Ivory, Bone, Shell, and Horn Goods, etc.
Leather.
Liquors and Beverages (Not Spirituous).

Metals and Metallic Goods.

Mixed Textiles.

Models, Lasts, and Patterns.

Musical Instruments and Materials.

Paper and Paper Goods.

Photographs and Photographic Materials.

Print Works, Dye Works, and Bleacheries.

Rubber and Elastic Goods.

Sporting and Athletic Goods.

Tallow, Candles, Soap, and Grease.

Whips, Lashes, and Stocks.

Woollen Goods.

A decrease in the average number of persons employed is shown for all of the industries except the following:

Worsted Goods.

Artisans' Tools.
Buttons and Dress Trimmings.
Cotton, Woollen, and other Textiles.
Emery and Sand Paper and Cloth,
etc.
Food Preparations.

Hosiery and Knit Goods.

Machines and Machinery.

Models, Lasts, and Patterns.

Photographs and Photographic Materials.

Sporting and Athletic Goods.

The range of unemployment in 1896 as compared with 1895 was wider in the following industries:

Artisans' Tools. Bicycles, Tricycles, etc. Boots and Shoes. Brooms, Brushes, and Mops. Buttons and Dress Trimmings. Carpetings. Chemical Preparations (Compound-Clocks, Watches, and Jewelry. Clothing. Cotton Goods. Cotton, Woollen, and other Textiles. Emery and Sand Paper and Cloth, etc. Furniture. Glass. Hair Work (Animal and Human). Hosiery and Knit Goods. Leather.

Mixed Textiles. Models, Lasts, and Patterns. Musical Instruments and Materials. Paper and Paper Goods. Photographs and Photographic Materials. Print Works, Dye Works, and Bleacheries. Rubber and Elastic Goods. Silk and Silk Goods. Sporting and Athletic Goods. Stone. Straw and Palm Leaf Goods. Tallow, Candles, Soap, and Grease. Trunks and Valises. Whips, Lashes, and Stocks. Woollen Goods. Worsted Goods.

Machines and Machinery.

Those showing a narrower range of unemployment are:

Awnings, Sails, Tents, etc.
Boxes (Paper and Wooden).
Burial Cases, Caskets, Coffins, etc.
Carriages and Wagons.
Crayons, Pencils, Crucibles, etc.
Food Preparations.
Ivory, Bone, Shell, and Horn Goods, etc.

Liquors and Beverages (Not Spirituous).

Metals and Metallic Goods.

Paints, Colors, and Crude Chemicals.

Perfumes, Toilet Articles, etc.

Tobacco, Snuff, and Cigars.

Wooden Goods.

In Ink, Mucilage, and Paste, an increase in the average number of days in operation, and no change in proportion of business done is shown, together with an increase in average yearly earnings, a decrease in the average number of persons employed, and a narrower range of unemployment.

In the next table is given a graphic portrayal of the condition in each industry in 1896 as compared with 1895, with respect to the amount of capital invested, value of goods made and work done, amount paid in wages during the year, and average number of persons employed. An increase in any of these items is indicated by the sign (+), a decrease by the sign (—), and no change by the sign (=).

ALL INDUSTRIES,			-		

All Industries, in the aggregate, show a decreased amount of capital invested, decreased product value, a smaller amount disbursed in wages, and a smaller average number of persons employed. The same statement applies to the following industries, 30 in number:

Boots and Shoes. Boxes (Paper and Wooden). Carriages and Wagons. Clocks, Watches, and Jewelry. Clothing. Cotton Goods. Dvestuffs. Earthen, Plaster, and Stone Ware. Electrical Apparatus and Appliances. Fancy Articles, etc. Furniture. Glass. Hair Work (Animal and Human). Ink, Mucilage, and Paste. Ivory, Bone, Shell, and Horn Goods, etc.

Leather.

Liquors and Beverages (Not Spirit-

Lumber.

Metals and Metallic Goods.

Musical Instruments and Materials.

Paints, Colors, and Crude Chemicals.

Paper and Paper Goods.

Perfumes, Toilet Articles, etc.

Rubber and Elastic Goods.

Saddlery and Harness.

Silk and Silk Goods.

Tallow, Candles, Soap, and Grease.

Wooden Goods.

Woollen Goods.

Worsted Goods.

The following seven industries show an increased amount of capital invested, value of goods made and work done, amount paid in wages, and average number of persons employed:

Brick, Tiles, and Sewer Pipe. Corks, Bungs, and Taps. Emery and Sand Paper and Cloth, etc. Hose: Rubber, Linen, etc.

Machines and Machinery.

Railroad Construction and Equipment.

Glue, Isinglass, and Starch.

180 STATISTICS OF MANUFACTURES. [Pub. Doc.

An increased amount of capital invested, but a decrease in value of goods made, amount paid in wages, and average number of persons employed, is shown for the following nine industries:

Awnings, Sails, Tents, etc.
Burial Cases, Caskets, Coffins, etc.
Carpetings.
Chemical Preparations (Compounded).
Mixed Textiles.

Print Works, Dye Works, and Bleacheries.
Tobacco, Snuff, and Cigars.
Trunks and Valises.
Whips, Lashes, and Stocks.

The following six industries show a decrease in capital invested but an increase in each of the other items:

Artisans' Tools.
Cordage and Twine.
Fine Arts and Taxidermy.
Oils and Illuminating Fluids.

Photographs and Photographic Materials.

Toys and Games (Children's).

An increase in the amount of capital invested and in value of goods made and work done, together with a decrease in amount of wages paid and average number of persons employed is shown for Drugs and Medicines. The same facts obtain for Polishes and Dressing, with the exception that there is no change in the average number of persons employed. decreased capital and output, with an increased amount paid in wages, and a larger average number of persons employed, is shown for Cooking, Lighting, and Heating Apparatus; Cotton, Woollen, and other Textiles; Fireworks and Matches; Food Preparations; Liquors: Malt, Distilled, and Fermented; Models, Lasts, and Patterns; and Shipbuilding. capital, larger product, decreased amount paid in wages, and a larger average number of persons employed is shown for Agricultural Implements; while a decreased capital, with increased product value and amount paid in wages, but a smaller average number of persons employed is shown for Arms and Ammunition; Electroplating; Stone; and Straw and Palm Leaf Goods. Bicycles, Tricycles, etc. exhibits an increased amount of capital invested, a smaller value of output, a larger amount paid in wages, and a smaller average number of persons employed. Brooms, Brushes, and Mops exhibits a decrease in capital, value of product, and average number of persons employed, with a larger amount paid in wages. The same facts are true of Cement, Kaolin, Lime, and Plaster; Crayons, Pencils, Crucibles, etc.; and Printing, Publishing, and Bookbinding. A decrease in each of the items, except average number of persons employed, which shows an increase, is found in Buttons and Dress Trimmings and Hosiery and Knit Goods. A decrease in the value of goods made and work done, together with an increase in each of the other items, is shown for Fertilizers; Scientific Instruments and Appliances; and Sporting and Athletic Goods. Flax, Hemp, Jute, and Linen Goods exhibits an increase in capital and in average number of persons employed, but a decrease in value of output and amount paid in wages.

The following table reproduces the leading facts relative to All Industries from the presentation on pages 145 to 147:

Classification.	1895	1896	Increase (+), or Decrease (-), in 1896		
			Amounts	Percent- ages	
Number of private firms,	3,529	3,493	-36	-1.02	
Number of corporations,	1,036	1,070	+34	+3.28	
Number of partners,	5,577	5,482	—95	-1.70	
Number of stockholders,	44,928	46,143	+1,215	+2.70	
Amount of capital invested,	\$390,932,763	\$373,582,161	-\$17,350,602	-4.44	
Value of stock used,	\$318,753,542	\$302,272,325	-\$16,481,217	-5.17	
Value of goods made and work done, .	\$569,097,021	\$537,720,294	-\$31,376,727	-5.51	
Persons employed,					
Average number,	307,590	298,546	9,044	-2.94	
Smallest number,	258,776	235,110	-23,666	-9.15	
Greatest number,	351,915	353,440	+1,525	+0.43	
Excess of greatest over smallest					
number,	93,139	118,330	+25,191	+27.05	
Total amount paid in wages,	\$130,845,551	\$126,913,372	-\$3,932,179	-3.01	
Average yearly earnings,	\$425.39	\$425.16	-\$0.23	-0.05	
Average proportion of business done, .	62.56	58.98	-3.58	-5.72	
Average number of days in operation, .	291.56	279.43	-12.13	-4.16	

The changes in each of the elements summarized in the foregoing table, when reduced to the basis of percentages, are at once apparent. These changes, of course, indicate that the condition of the industries, in the aggregate, was much poorer in 1896 than in the previous year. The increase in the num-

ber of corporations and stockholders, it should be borne in mind, is due to changes from a private firm to a corporate basis on the part of establishments making return in each year. The same cause accounts for the percentages of decrease in the number of private firms and in the number of partners.

These returns are rendered by identical establishments in each year, and in the 4,609 considered in this comparison, capital decreased to the extent of 4.44 per cent, value of stock used decreased 5.17 per cent, and the value of goods made and work done decreased 5.51 per cent.

The aggregate average number of persons employed exhibits a decrease of 2.94 per cent, and the total amount paid in wages

		In	DUST	ues.			Number of Estab- lishments Con- sidered	Amount of Capital Invested	Average Number of Persons Employed
1	Boots and shoes,						605	\$19,990,145	42,263
2	Carpetings, .						12	6,020,485	4,232
8	Cotton goods,						169	112,902,817	78,058
4	Leather, .						143	7,329,970	6,347
5	Machines and ma	chi	inery	, .			371	23,733,634	18,082
6	Metals and metal	lic	good	в,			382	17,633,004	14,242
7	Paper and paper	go	ods,			•	123	23,670,894	11,112
8	Woollen goods,						122	19,186,201	13,671
9	Worsted goods,						27	15,343,809	11,318

[Note. It is proper to explain certain designations used in the above table. By "Industry value created above the value of stock and materials consumed. The values presented in this from the total value of goods made and work done in each of the specified industries, the value division of the proceeds of each industry, one part of this industry product is paid to the labor fund from which are paid freights, insurance, interest on loans (credit capital), interest on stock those for stock and wages. The remainder, if any, is the profit of the employer. The entire comes a "Profit and Minor Expense Fund," and is thus designated in the table. Of course, it we have enumerated, paid out of this balance, are in themselves considerable in amount, and for materials (stock), and wages.

The note presented with this table explains certain designations used in it. The largest industry product, per \$1,000 of capital invested, is found in Boots and Shoes, \$1,703.92. No other industry approaches this figure. The nearest to it, however, is Leather, the industry product being \$806.79. Following this industry, ranks Machines and Machinery and Metals and Metallic Goods, in which the industry products are \$764.27 and \$728.52, respectively. Next come Woollen Goods and

shows a decline of 3.01 per cent. The range of unemployment was wider in 1896 than in 1895. A decrease is also shown in average yearly earnings, while the average proportion of business done, based upon the full productive capacity of the establishments, was 5.72 per cent less in 1896 than in 1895. Each of the employés worked 12.13 days less in 1896 than in 1895.

The next table presents the actual product per \$1,000 of capital invested in each of the nine leading industries, with the average product per employé, the percentages of industry product paid in wages, and the percentages devoted to other expenses:

Total			Industry	PRODUCT	PERCENT INDUSTRY		
Amount d in Wages ouring the Year	Industry Product	Profit and Minor Expense Fund	Per \$1,000 of Capital	Average per Employé	Devoted to Profit and Minor Expenses	Paid in Wages	
20,834,331	\$34,061,691	\$13,227,360	\$1,703.92	\$805.95	38.83	61.17	1
1,443,472	2,371,772	928,300	393.95	560.44	39.14	60.86	2

4,476,285	9,419,292	4,943,007	397.93	847.67	52.48	47.52	7
4,963,615	8,269,142	3,305,527	430.99	604.87	39.97	60.03	8
3,848,327	6,965,696	3,117,369	453.97	615.45	44.75	55.25	9

Product" is meant the actual result of the productive forces in the industry, that is, the added and the following tables under the designation "Industry Product" are obtained by deducting of stock used, the difference being added value or actual product due to the industry. In the force in the form of wages, this being labor's share of the product. The balance constitutes a (fixed or invested capital), rents, commissions, salaries, etc.; in fact, all expenses other than balance of the industry product remaining after the deduction of the amount paid in wages, bewill be understood that the term "Minor Expense" is relative. The expenses, some of which are only to be classed as "Minor" in comparison with the generally larger amounts expended

Worsted Goods, the industry products per \$1,000 of capital being \$430.99 and \$453.97, respectively. Paper and Paper Goods follows, with an industry product per \$1,000 of capital of \$397.93, and is in turn followed by Carpetings, with an industry product of \$393.95. Cotton Goods ranks lowest among the industries in the selected list, the industry product per \$1,000 of capital being \$326.37.

These figures afford an indication of the efficiency of the

capital invested in these industries during 1896, and those which present the average industry product per employé may be considered as indicating the efficiency of labor. With respect to this point, Machines and Machinery leads the other industries, the average product per employé being \$1,003.15. Not far below it is Leather, in which an average of \$931.74 appears, and Metals and Metallic Goods, in which an average of \$901.98 is shown. Following in the order named, with averages as specified, are Paper and Paper Goods, \$847.67; Boots and Shoes, \$805.95; Worsted Goods, \$615.45; Woollen Goods, \$604.87; Carpetings, \$560.44; and Cotton Goods, \$472.06.

When the percentage of industry product paid in wages is considered, we find that Cotton Goods leads, the percentage being 70.19. Next rank Boots and Shoes, Carpetings, and Woollen Goods, the percentages being 61.17, 60.86, and 60.03, respectively. Metals and Metallic Goods follows, with a percentage of 56.19, and is in turn followed by Worsted Goods with a percentage of 55.25; Machines and Machinery, 53.65; and Leather, 50.47. In Paper and Paper Goods, ranking lowest in this comparison, the percentage is 47.52. These percentages of industry product paid in wages are the complements of the percentages of industry product devoted to profit and minor expenses, these two items aggregating 100 per cent or the whole of the industry product.

In the following presentation, the rank of the different industries for 1896, as regards the amount of industry product per \$1,000 of capital, is compared with the rank of the same industries for 1895, as derived from the report on Annual Statistics of Manufactures for that year:

1895.

Boots and Shoes.
Leather.
Metals and Metallic Goods.
Machines and Machinery.
Carpetings.
Worsted Goods.
Woollen Goods.
Paper and Paper Goods.
Cotton Goods.

1896.

Boots and Shoes.
Leather.
Machines and Machinery.
Metals and Metallic Goods.
Worsted Goods.
Woollen Goods.
Paper and Paper Goods.
Carpetings.
Cotton Goods.

In the above comparison, Boots and Shoes, Leather, and Cotton Goods retain the same position in each year. The places occupied by Machines and Machinery and Metals and Metallic Goods are reversed. Worsted Goods, which ranked sixth in 1895, ranks fifth in 1896; Woollen Goods, which ranked seventh in 1895, ranks sixth in 1896. Paper and Paper Goods, which ranked eighth in 1895, ranks seventh in 1896; and Carpetings, which ranked fifth in 1895, fell to eighth position in 1896.

With respect to the average industry product per employé, the rank of the industries in each of the years appears in the following table:

1895

Machines and Machinery.
Leather.
Metals and Metallic Goods.
Paper and Paper Goods.
Boots and Shoes.
Woollen Goods.
Carpetings.
Worsted Goods.
Cotton Goods.

1896.

Machines and Machinery.
Leather.
Metals and Metallic Goods.
Paper and Paper Goods.
Boots and Shoes.
Worsted Goods.
Woollen Goods.
Carpetings.
Cotton Goods.

From the above table it is seen that six of the industries retain the same position in 1896 as in 1895; they are Machines and Machinery, Leather, Metals and Metallic Goods, Paper and Paper Goods, Boots and Shoes, and Cotton Goods. Worsted Goods, Woollen Goods, and Carpetings each changed positions in 1896.

The next comparison relates to the percentage of industry product paid in wages, the industries ranking as follows:

1895.

Cotton Goods.
Boots and Shoes.
Worsted Goods.
Carpetings.
Woollen Goods.
Metals and Metallic Goods.
Machines and Machinery.
Leather.
Paper and Paper Goods.

1896.

Cotton Goods.
Boots and Shoes.
Carpetings.
Woollen Goods.
Metals and Metallic Goods.
Worsted Goods.
Machines and Machinery.
Leather.
Paper and Paper Goods.

In this comparison, Cotton Goods, Boots and Shoes, Machines and Machinery, Leather, and Paper and Paper Goods retain the rank in 1896 which was held in 1895. Carpetings, which ranked fourth in 1895, ranks third in 1896; Woollen Goods, ranking fifth in 1895, ranks fourth in 1896; Metals and Metallic Goods rose from the sixth place in 1895 to fifth position in 1896; while Worsted Goods fell from third place in 1895 to sixth place in 1896.

In this connection, we present a series of separate tables for the nine leading industries for the purpose of comparison between the years 1895 and 1896, bringing forward for that purpose data contained in the table on pages 182 and 183. The first relates to Boots and Shoes.

Boots and Shoes. [Comparisons for 605 Establishments.]

Classification.	1895	1896	
Amount of capital invested,	\$ 23,172,349	\$ 19,990,145	
Value of goods made and work done (gross product),	\$89,938,212	\$87,945,168	
Value of stock used and other materials consumed in production, .	\$55,559,505	\$53,883,477	
Industry product (gross product less value of stock and materials),	\$34,378,707	\$34,061,691	
Wages (labor's direct share of product),	\$20,838,632	\$20,834,331	
Profit and minor expense fund (industry product less wages),	\$13,540,075	\$13,227,360	
Percentage of industry product paid in wages,	60.61	61.17	
Percentage of industry product devoted to profit and minor expenses,	39.39	38.83	
Percentage of profit and minor expense fund of capital invested,	58.44	66.17	

The percentages of industry product paid in wages in 1895 and 1896 were 60.61 and 61.17, respectively, a slight increase in the last named year. The percentage of industry product devoted to profit and minor expenses shows a decrease, being 39.39 in 1895 and 38.83 in 1896. The percentage which this profit and minor expense fund forms of capital invested was 66.17 in 1896 as against 58.44 in 1895; that is to say, a larger portion of the amount remaining in this industry, after eliminating the cost of stock, was devoted to wages in 1896 than in 1895, leaving a slightly smaller amount for the payment of expenses (other than wages and stock) and for profit, and this amount formed a larger percentage of the total capital in the industry in 1896 than in 1895.

A similar comparison for Carpetings follows:

Carpetings. [Comparisons for 12 Establishments.]

Classification.	1895	1896
Amount of capital invested,	\$ 6,008, 497	\$6,020,485
Value of goods made and work done (gross product),	\$7,213,798	\$5,674,637
Value of stock used and other materials consumed in production, .	\$4,336,556	\$3,302,865
Industry product (gross product less value of stock and materials),	\$2,877,242	\$2,371,772
Wages (labor's direct share of product),	\$1,709,689	\$1,443,472
Profit and minor expense fund (industry product less wages),	\$1,167,558	\$928,300
Percentage of industry product paid in wages,	59.42	60.86
Percentage of industry product devoted to profit and minor expenses,	40.58	39.14
Percentage of profit and minor expense fund of capital invested, .	19.43	15.42

The percentage of industry product paid in wages in this industry in 1895 and 1896 was 59.42 and 60.86, respectively, an increase in the last named year. Eliminating wages, the fund devoted to profit and minor expenses declined from 40.58 per cent in 1895 to 39.14 per cent in 1896, and this fund formed but 15.42 per cent of capital invested in 1896 as against 19.43 per cent in 1895.

The next table presents a comparison for Cotton Goods.

Cotton Goods. [Comparisons for 169 Establishments.]

CLASSIFICATION.	1895	1896	
Amount of capital invested,	\$ 116,141,614	\$112,902,817	
Value of goods made and work done (gross product),	\$89,615,751	\$87,146,00	
Value of stock used and other materials consumed in production, .	\$46,244,435	\$50,297,98	
Industry product (gross product less value of stock and materials),	\$43,371,316	\$36,848,01	
Wages (labor's direct share of product),	\$26,234,125	\$25,865,19	
Profit and minor expense fund (industry product less wages),	\$17,137,191	\$10,982,82	
Percentage of industry product paid in wages,	60.49	70.19	
Percentage of industry product devoted to profit and minor expenses,	39.51	29.8	
Percentage of profit and minor expense fund of capital invested, .	14.76	9.7	

In this industry, the percentage of industry product paid in wages increased in 1896 as compared with 1895, the percentages being 70.19 and 60.49, respectively. Of course, the percentage of industry product devoted to profit and minor expenses correspondingly decreased to 29.81 in 1896 as against 39.51 in 1895. The profit and minor expense fund formed 9.73 per cent of capital in 1896 as against 14.76 per cent in 1895.

The next table relates to Leather.

CLASSIFICATION.	1895	1896
Amount of capital invested,	\$ 8,479,094	\$ 7,329,970
Value of goods made and work done (gross product),	\$22,379,841	\$19,041,544
Value of stock used and other materials consumed in production, .	\$15,746,203	\$13,127,769
Industry product (gross product less value of stock and materials),	\$6,633,638	\$5,913,775
Wages (labor's direct share of product),	\$3,448,203	\$2,984,515
Profit and minor expense fund (industry product less wages), .	\$3,185,435	\$2,929,260
Percentage of industry product paid in wages,	51.98	50.47
Percentage of industry product devoted to profit and minor expenses,	48.02	49.53
Percentage of profit and minor expense fund of capital invested, .	87.57	39.96

Leather. [Comparisons for 143 Establishments.]

In this industry, we find practically the same conditions in each year, the percentages of industry product paid in wages being 50.47 in 1896 as against 51.98 in 1895. The percentage of industry product devoted to profit and minor expenses shows a slight increase, rising from 48.02 in 1895 to 49.53 in 1896. The percentage which the profit and minor expense fund formed of capital invested was 37.57 in 1895 and 39.96 in 1896.

The next table presents a comparison for Machines and Machinery.

CLASSIFICATION.	1895	1896	
Amount of capital invested,	\$23,167,426	\$2 5,733,634	
Value of goods made and work done (gross product),	\$26,027,029	\$28,489,920	
Value of stock used and other materials consumed in production, .	\$9,931,227	\$10,350,938	
Industry product (gross product less value of stock and materials),	\$16,095,802	\$18,138,982	
Wages (labor's direct share of product),	\$9,072,876	\$9,731,509	
Profit and minor expense fund (industry product less wages), .	\$7,022,926	\$8,407,47 8	
Percentage of industry product paid in wages,	56.37	53.6	
Percentage of industry product devoted to profit and minor expenses,	43.63	46.8	
Percentage of profit and minor expense fund of capital invested, .	30.31	35.42	

The percentage of industry product paid in wages in this industry fell from 56.37 in 1895 to 53.65 in 1896. A corresponding increase is found in the percentage of industry product devoted to profit and minor expenses rising from 43.63 in 1895 to 46.35 in 1896. The percentage of profit and minor expense fund of capital invested also rose, the increase being from 30.31 in 1895 to 35.42 in 1896.

A comparison for Metals and Metallic Goods follows:

Metals and Metallic Goods. [Comparisons for 382 Establishments.]

189

CLASSIFICATION.	1895	1896
Amount of capital invested,	\$19,177,940	\$17,638,004
Value of goods made and work done (gross product),	\$24,484,118	\$23,472,816
Value of stock used and other materials consumed in production, .	\$11,021,656	\$10,626,829
Industry product (gross product less value of stock and materials),	\$13,462,462	\$12,845,987
Wages (labor's direct share of product),	\$7,479,648	\$7,218,118
Profit and minor expense fund (industry product less wages),	\$5,982,819	\$5,627,869
Percentage of industry product paid in wages,	55.56	56.19
Percentage of industry product devoted to profit and minor expenses,	41.44	43.81
Percentage of profit and minor expense fund of capital invested, .	31.20	31.92

In this industry, the percentage of industry product devoted to profit and minor expenses declined from 44.44 in 1895 to 43.81 in 1896. The percentage of industry product paid in wages rose correspondingly from 55.56 in 1895 to 56.19 in 1896. The percentage of profit and minor expense fund of capital invested rose from 31.20 in 1895 to 31.92 in 1896.

The facts for Paper and Paper Goods are shown in the next table.

Paper and Paper Goods. [Comparisons for 123 Establishments.]

Classification.	1895	1896	
Amount of capital invested,	\$24,682,633	\$23,670,894	
Value of goods made and work done (gross product),	\$25,028,375	\$23,044,582	
Value of stock used and other materials consumed in production, .	\$14,830,407	\$18,625,290	
Industry product (gross product less value of stock and materials),	\$10,197,968	\$9,419,292	
Wages (labor's direct share of product),	\$4,723,678	\$4,476,280	
Profit and minor expense fund (industry product less wages), .	\$5,474,290	\$4,943,007	
Percentage of industry product paid in wages,	46.32	47.52	
Percentage of industry product devoted to profit and minor expenses,	58.68	52.48	
Percentage of profit and minor expense fund of capital invested, .	22.18	20.88	

In this industry, the percentage of industry product paid in wages rose from 46.32 in 1895 to 47.52 in 1896, while the percentage of industry product devoted to profit and minor expenses fell correspondingly from 53.68 in 1895 to 52.48 in 1896. The percentage of profit and minor expense fund of capital invested also declined from 22.18 in 1895 to 20.88 in 1896.

The next table relates to Woollen Goods.

Woollen Goods. [Comparisons for 122 Establishments.]

CLASSIFICATION.	1895	1896
Amount of capital invested,	\$21,932,897	\$19,186,20
Value of goods made and work done (gross product),	\$24,899,606	\$19,662,183
Value of stock used and other materials consumed in production, .	\$14,410,166	\$11,393,040
Industry product (gross product less value of stock and materials),	\$10,489,440	\$8,269,142
Wages (labor's direct share of product),	\$5,987,401	\$4,963,614
Profit and minor expense fund (industry product less wages),	\$4,502,039	\$3,305,527
Percentage of industry product paid in wages,	57.08	60.0
Percentage of industry product devoted to profit and minor expenses,	42.92	39.9
Percentage of profit and minor expense fund of capital invested,	20.53	17.2

In this industry, we note an increase in the percentage of industry product paid in wages, which rose from 57.08 in 1895 to 60.03 in 1896, matched by a corresponding decrease in the percentage of industry product devoted to profit and minor expenses, which declined from 42.92 in 1895 to 39.97 in 1896. The percentage of profit and minor expense fund of capital invested also shows a decrease, falling from 20.53 in 1895 to 17.23 in 1896.

The final table relates to Worsted Goods.

Worsted Goods. [Comparisons for 27 Establishments.]

CLASSIFICATION.	1895	1896	
Amount of capital invested,	\$15,700,666	\$ 15,343,806	
Value of goods made and work done (gross product),	\$20,599,046	\$17,827,246	
Value of stock used and other materials consumed in production, .	\$13,133,003	\$10,861,550	
Industry product (gross product less value of stock and materials),	\$7,466,043	\$6,965,696	
Wages (labor's direct share of product),	\$4,490,457	\$3,848,327	
Profit and minor expense fund (industry product less wages),	\$2,975,586	\$3,117,369	
Percentage of industry product paid in wages,	60.15	55.25	
Percentage of industry product devoted to profit and minor expenses,	39.85	44.75	
Percentage of profit and minor expense fund of capital invested,	18.95	20.32	

In this industry, a decrease in the percentage of industry product paid in wages is found; this percentage was 60.15 in 1895 and 55.25 in 1896. The percentage of industry product devoted to profit and minor expenses increased from 39.85 in 1895 to 44.75 in 1896, and the percentage of profit and minor expense fund of capital invested also rose from 18.95 in 1895 to 20.32 in 1896.

The returns permit of the following condensed general statements as regards the years 1895 and 1896 for the 4,609 establishments:

CAPITAL INVESTED.

The decrease in capital devoted to production in 1896 as compared with 1895, in All Industries, amounted to 4.44 per cent. In connection with this statement, it should be remembered that this does not necessarily imply the withdrawal of capital from the productive enterprises of the Commonwealth: and when taken in conjunction with the other facts relative to the condition of the industries during the year, it is apparent that while a statistical decrease is shown, this decrease may be due to the small amount of stock on hand and in process of manufacture, or to some of the items classed as capital, other than cash, as explained in the statement on page 157. In the nine leading industries, representing 65.80 per cent of the total capital as returned in 1896, the following facts appear: In 1896, an increase of capital is shown in two of these industries, namely, Carpetings, 0.20, and Machines and Machinery, 2.44 per cent. In each of the other leading industries, seven in number, the capital devoted to production exhibits a decrease in 1896 as compared with 1895, the percentages being as follows: Boots and Shoes, 13.73; Cotton Goods, 2.79: Leather, 13.55: Metals and Metallic Goods, 8.06: Paper and Paper Goods, 4.10: Woollen Goods, 12.52; and Worsted Goods, 2.27.

STOCK USED.

In All Industries, considered in the aggregate, the value of stock used in 1896 shows a decrease as compared with 1895 of 5.17 per cent. In the nine leading industries, the value of stock used in which amounted to 58.71 per cent of the aggregate value of stock used, as returned in 1896, the following percentages of decrease appear: Boots and Shoes, 3.02; Carpetings, 23.84; Leather, 16.63; Metals and Metallic Goods, 3.59; Paper and Paper Goods, 8.13; Woollen Goods, 20.94; and Worsted Goods, 17.30. Two of the industries, namely, Cotton Goods and Machines and Machinery, show an increase in the value of stock used in 1896 as compared with 1895, the percentages being 8.77 and 4.23, respectively.

GOODS MADE.

The aggregate value of goods made and work done in All Industries, in 1896 as compared with 1895, shows a decrease in value of 5.51 per cent. Only one of the nine leading industries, Machines and Machinery, exhibits an increase in product value, the percentage of increase being 9.46. In the other leading industries, the following percentages of decrease appear: Boots and Shoes, 2.22; Carpetings, 21.34; Cotton Goods, 2.76; Leather, 14.92; Metals and Metallic Goods, 4.13; Paper and Paper Goods, 7.93; Woollen Goods, 21.03; and Worsted Goods, 13.46. The aggregate value of the goods made and work done in these nine leading industries represented 58.08 per cent of the total value of goods made and work done, as returned by the 4,609 establishments in 1896.

PERSONS EMPLOYED.

The decrease in the average number of persons employed in 1896 as compared with 1895 was 9,044, or 2.94 per cent. decrease is also shown in the smallest number of persons employed of 23,666 persons, or 9.15 per cent; while the number of persons employed at periods of employment of the greatest number shows an increase of 1,525 persons, or 0.43 per cent. The range of unemployment was wider in 1896 than in 1895. In only one of the nine leading industries, Machines and Machinery, an increase in the average number of persons employed appears, the percentage of increase being 6.79. In each of the other industries, the following percentages of decrease in the average number of persons employed are found: Boots and Shoes, 2.12; Carpetings, 8.32; Cotton Goods, 2.18; Leather. 11.45; Metals and Metallic Goods, 3.08; Paper and Paper Goods, 4.59; Woollen Goods, 15.29; and Worsted Goods. 7.96.

WAGES PAID.

The total amount paid in wages in the 4,609 establishments represented in the 77 industries decreased 3.01 per cent in 1896 as compared with 1895. In eight of the nine principal industries, the following percentages of decrease appear: Boots and Shoes, 0.02; Carpetings, 15.57; Cotton Goods, 1.41; Leather, 13.45; Metals and Metallic Goods, 3.50; Paper and Paper

Goods, 5.24; Woollen Goods, 17.10; and Worsted Goods, 14.30. An increase is shown for Machines and Machinery of 7.26 per cent.

The average yearly earnings per individual, without regard to sex or age, employed in the 77 industries, was \$425.39 in 1895 and \$425.16 in 1896, a decrease of 0.05 per cent. The range from highest to lowest average yearly earnings was from \$712.32 to \$300.83 in 1895 and from \$706.42 to \$282.25 in 1896. The higher earnings rule in the industries demanding greater skill and employing males chiefly, and the lower in factory industries employing a large proportion of females and young persons.

Proportion of Business Done.

The average proportion of business done reached 62.56 per cent in 1895 and 58.98 per cent in 1896 of the full productive capacity of the 4,609 establishments, a decrease of 5.72 per cent in the latter year.

Each of the employes worked, on an average, 291.56 days in 1895 and 279.43 days in 1896, a decrease of 12.13 days, or 4.16 per cent.

INDUSTRIAL CHRONOLOGY.

1896.

. -

INDUSTRIAL CHRONOLOGY — 1896.

Abington. In February, W. E. Lyon, shoes, resumed operations after shutdown of several months. — Joseph E. Kimball, inventor of various machines used in shoe manufacture, died, aged 57 years. March. Co-operative company formed to manufacture shoes. April. Webster S. Wales, retired shoe manufacturer, died, aged 77 years. May. Patent granted Herbert H. Buffum on slug or nall strip. July. Nash & Gifford established manufacture of shoes. September. L. A. Crossett, shoes, reduced force; in October, increased. October. Patent granted Wm. B. Arnold on removable form for boots or shoes. November. Patent granted Herbert H. Buffum on sewing machine.

Adams. In January, Greylock Shirt Co. resumed operations after two weeks' shutdown. - Berkshire Cotton Manufacturing Co. petitioned Legislature to increase capital stock to \$2,000,000. - L. L. Brown Paper Co. made changes and repairs. Berkshire Cotton Manufacturing Co. decided to erect office building. March. Vacant Zylonite Works purchased by Mannesmann Cycle Tube Co.; work of repairing and improvement begun in April. - Berkshire Cotton Manufacturing Co. began erection of steam plant consisting of seven 175 horse power boilers and smoke-stack 125 feet high; awarded contract for new storehouse and office building. April. Berkshire Cotton Manufacturing Co. set up new looms. - Adams Bros. Manufacturing Co., cottons, shut down one-half of plant. May. Mill No. 3 of Berkshire Cotton Manufacturing Co. dedicated; mill requires 1,000 operatives. --- Work of excavating for canal, 33 feet wide and 4.200 feet long, at plant of Mannesmann Cycle Tube Co. begun. — L. L. Brown Paper Co. decided to purchase engine of 3,000 horse power. June. Temporary shutdown occurred at plant of Renfrew Manufacturing Co., cottons. - Berkshire Cotton Manufacturing Co. started up No. 3 mill; in July, increased plant by purchase of additional land. July. Renfrew Manufacturing Co., cottons, added new machinery and started up. -Greylock Shirt Co. resumed operations after shutdown. August. Barlow granted patent on last. - W. L. Douglas Shoe Co. made changes in lasting machines. - L. C. Bliss & Co., shoes, decided to remove to Whitman. - Preston B. Keith, shoes, shut down for stock taking and increased force. — Box factory of Theodore Cushing damaged by fire. November. Preston B. Keith, shoes, succeeded by Preston B. Keith Shoe Co.; incorporated; capital stock \$100,000. — Improvements made at factory of Mawhinney Last Co. and erection of addition begun, 20 x 60 feet, one story, --- Patent granted to Daniel W. Stevenson on sewing machine. - D. W. Field, shoes, increased force. - L. M. Reynolds & Co., shoes, and Charles A. Eaton & Co., shoes, shut down for inventory and resumed. - F. M. Shaw & Son, leather, ran with reduced force. — Isaac A. Dunham, inventor of several tools used in shoe manufacturing, died. - Factory of A. M. Herrod & Co., shoes, damaged by December. Patent granted to John B. Hadaway on welt beveling attachment for sole sewing machines and to George O. Goddard on strip feeding attachment for printing presses. --- W. S. Bamford, Arthur W. and Alfred A. Smith formed partnership and secured quarters for manufacture of elastic goring. --- George R. Earle established manufacture of shoe patterns. — Mulligan & Drislane and George H. Jennings established manufacture of box toes. - William Talbot established manufacture of shoes. -George E. Keith, shoes, changed style to George E. Keith Co.; incorporated; capital stock \$250,000. — Ware & Lincoln, shoes, succeeded by Ware, Lincoln, & Thayer. Edward O'Donnell retired from firm of J. M. O'Donnell & Co.; business continued under style of J. M. O'Donnell & Co. and removed to Middleborough. --- Mawhinney Last Co. removed from Worcester to this place. - Brockton Box Toe Co. moved into new and larger quarters. — Chas. A. Eaton & Co., shoes, increased power and space. — Small, Nesmith, & Co., shoes, increased space. - A. M. Herrod & Co., shoes, shut down a few days. — Edward Tisdale of C. E. Tisdale & Co., shoes, West Bridgewater, died, aged 74 years. - Number of cases of shoes shipped during 1895 and 1896, as compiled by the Brockton Enterprise, were as follows: -

Months.		1895	1896	Months.			1895	1896
January, .		35,238	33,465	August, .			43,056	83,100
February, .		87,006	36,110	September,			35,073	40,029
March, .	.	48,416	40,556	October, .			30,915	43,787
April,		42,734	42,150	November,			35,805	28,850
Мау,	.	49,709	51,242	December,			20,527	22,950
June,		37,370	31,681	Totals,			444,763	434,375
July,	.	28,914	30,455			į		

It will be seen by the above table that the shipments for 1896 were 434,375 cases as against 444,763 cases in 1895, a decrease of 10,388 cases or 2.34 per cent. Shipments during past ten years were as follows:—

YEARS.							Cases	Cases YEARS.						Cases
1887, .					•		383,404	1892,						428,241
1888, .							422,282	1893,						422,053
1889, .							433,452	1894,						424,036
1890, .							469,607	1895,						444,768
1891, .						.	429,582	1896,						434,375

Brockfield. In January, Sagendorph Mills, woollens, purchased by L. N. Taylor and leased to C. C. Maguire, formerly of Maguire & Gilmore; started up in February. February. H. H. Brown & Co. and C. H. Moulton & Co., shoes, started up on full time. March. Geo. Mann & Bro., woollens, ran on short time. - E. & A. H. Batcheller Co., shoes, began running on ten-hour time. ---- Parmenter Manufacturing Co., pottery, shut down indefinitely. - W. S. Hill Electric Co. organized to manufacture electric apparatus; purchased brick and wooden buildings. --- Brookfield Pressed Brick Co. started - Bradford Yarn Mills, woollens, leased by new company and machinery put in position. — Lasters employed by George H. Burt Co., shoes, struck because of cut in April. Alvin Hyde, boxes, started up business in new factory. - Picker building at plant of Geo. Mann & Bro., woollens, damaged by fire. May. Greyhound Bicycle Co. ran overtime. --- Parmenter Manufacturing Co., pottery, began work of consolidating three brick mills in one.—E. & A. H. Batcheller Co., shoes, shut down for stock taking. --- Picker house at plant of Geo. Mann & Bro., woollens, rebuilt and business started up on reduced scale. - Strike occurred among Italian laborers on electric June. E. & A. H. Batcheller Co., shoes, re-adjusted work and prices. - Geo. Mann & Bro., woollens, shut down indefinitely on account of dull trade. field Pressed Brick Co., shut down indefinitely. — Tyler-Moulton Shoe Co. and George H. Burt & Co., shoes, shut down indefinitely; later, George H. Burt & Co. resumed op-August. Tyler-Moulton Shoe Co. reorganized; in November, removed to West Brookfield. November. Geo. Mann & Bro., woollens, resumed operations. — E. & A. H. Batcheller Co. added new machines. — Parmenter Manufacturing Co., bricks, made improvements in plant. December. Geo. Mann & Bro. leased Sagendorph Woollen Mill.

Brockline. In April, Alexander B. Wilbor, manufacturing chemist, died, aged 69 years. August. Charles M. Smith, inventor, died, aged 51 years. October. Henry Bond, tanner, died, aged 79 years. November. William E. Shaw invented clock by which the deaf can be awakened at any desired time. — Patent granted Louis J. Hirt on mechanism for cable railways and Frederick S. Belyea on dental plugger.

CAMBRIDGE. In January, plant secured for establishment of paper box factory. - Standard Brass Co. purchased plant of Framingham Brass Manufacturing Co. and removed stock and machinery to this place. February. American Rubber Works shut down for two weeks. --- New factory building owned by Cambridge Improvement Co. destroyed by fire. - Factory of W. C. H. Badger & Co., furniture, damaged by fire. March. Rawson & Morrison, machinery, awarded contract for new building, 60 x 150 feet, two stories. - Plant of American Net & Twine Co. damaged by fire. May. William P. Greenlaw granted patent on clothes pounder. - Factory of Charles Place, paper boxes, destroyed by fire; to be rebuilt. June. Strike occurred among employés of August. Factory of American Rubber Co. Ginn & Co., publishers; settled in July. September. Contract awarded for new factory of Charles Place. resumed operations. November. Union Bottling Co. started up after three months' shutdown. -Edward L. Dwyer granted patent on street car sign. - Plant of Boston Bridge Works destroyed by fire. - Furniture factory of A. B. & E. L. Shaw and lumber plant of Parker & Page damaged by fire. December. Patent granted to Myron F. Hill on telephone exchange. - Furniture factory of Rouke & Kennedy destroyed by fire.

Canton. In February, Charles Draper, retired woollen manufacturer, died, aged 63 years. April. Robert Draper's Sons, cottons and knit goods, shut down indefinitely. June. Draper Bros. Co., hostery and knit goods, resumed full time. — James L. Draper of Draper Bros. Co., died, aged 47 years. November. Patent granted to Cornelius Callahan on hose nozzle. — Eureka Silk Co. resumed operations in No. 3 mill.

Charlton. In April, J. O. Copp, woollens, reduced to three-fourths time. — H. I. Gould & Co., wooden boxes, destroyed by fire. May. Akers & Taylor, woollens, added card feeds: in July, shut down for repairs.

Chelmsford. In January, George C. Moore, wool scourer, added machinery. April. New saw mill of A. L. Brooks & Co. completed. September. George C. Moore, wool scourer, shut down portion of plant and reduced running time. November. Chelmsford Foundry Co. resumed operations on full time. — George C. Moore, wool scourer, ran nights.

CHELSEA. In January, Revere Rubber Co. petitioned to increase capital stock from \$1,000,000 to \$8,000,000. February. Mahogany mill of George D. Emery damaged by fire; in March, a similar fire occurred. — Employés of Revere Shoe Co. struck for restoration of wages. April. Boston Rubber Co. became part of United States Rubber Co. and shutdown of plant occurred. May. Storehouse of Boston Rubber Co. damaged by fire. October. Erection of new factory of wood, 48 x 148 feet, two stories, begun for Martin Bros. Manufacturing Co. of Niagara Falls, N. Y., elastic webbing. November. Patent granted to Addison S. Hodges on flask for making seamless sash weights.

Cheshire. In July, stock subscribed for the establishment of new shoe factory.

Chester. In July, plant formerly operated as tannery made over into emery mill.

Chesterfield. In November, T. E. Smith, wooden goods, made repairs and improvements.

CHICOPEE. In January, Chicopee Falls Wheel Co. organized to manufacture "Chicopee" bicycle. — Stevens Arms & Tool Co. re-organized. — Taylor, Bramley, & Co., knit goods, decided to enlarge plant. --- Holyoke Card & Paper Co. completed new building. — Coghlin's Steam Boiler & Iron Works of Holyoke, purchased land in this place for February. Lamb Manufacturing Co., knitting machines, erection of mill and foundry. March. Belcher added new engine and decided to move part of plant to New Jersey. & Taylor Agricultural Tool Co. completed storehouse, 30 x 120 feet. — Jerome W. Doten, knit goods, decided to discontinue business. — Taylor, Bramley, & Co., knit goods, completed addition, 26 x 28 feet, three stories, set up machinery, and began running. ping room of Chicopee Manufacturing Co., cottons, damaged by fire. April. Lamb Manufacturing Co., knitting machinery, removed skate manufacturing department to Newark, N. J. - Dwight Manufacturing Co., cottons, shut down mule room temporarily on account of high water. May. Overman Wheel Co., bicycles, began running on summer schedule. - Factory of Belcher & Taylor Agricultural Tool Co. damaged by fire.

June. Lamb Manufacturing Co., knitting machines, reduced running time to eight hours. -Factory of Dana S. Courtney, bobbins, destroyed by fire. July. James Emerson, inventor of apparatus for measuring water power, dynamometer, and system of heating cars by steam from the engine, died, aged 73 years. August. Overman Wheel Co. made repairs and shut down. ---- Stevens Arms & Tool Co. shut down for two weeks. --- Dwight Manufacturing Co., cottons, shut down its several mills alternate weeks in order to curtail production. — Chicopee Manufacturing Co., cottons, resumed operations after four September. Overman Wheel Co., blcycles, increased force. --- Conweeks' shutdown. tract awarded for re-building bobbin factory of Dana S. Courtney. - Chicopee Manufacturing Co., cottons, erected new penstocks. - Stevens Arms & Tool Co. ran on reduced time. - Dwight Manufacturing Co., cottons, and Chicopee Manufacturing Co., cottons, reduced wages. October. Lamb Manufacturing Co., machinery, increased running time and Overman Wheel Co., increased force. November. Overman Wheel Co., bicycles, ran overtime. — Jonathan R. Whittemore, manufacturer of agricultural implements, died, aged 74 years.

Clinton. In January, Witherell Shoe Co. shut down indefinitely. --- Clinton Worsted Co. changed from overtime to regular hours. February. Bigelow Carpet Co. reduced force because of dull trade. - Wekepeke Woollen Co. reduced wages of weavers on account of dull market. March. Bigelow Carpet Co. reduced running time on account of scarcity of orders. - Lancaster Mills, cottons, shut down on account of high water; later received new looms. April. Carding and spinning rooms of Wekepeke Woollen Co. ran 24 hours per day. - Clinton Worsted Co. reduced running time to 40 hours per week. - Bigelow Carpet Co. reduced running time to three days per week; in May, returned to full time. May. John D. Missroon granted patent on slate picker; June. Lancaster Mills, cottons, added new maassigned to Clinton Wire Cloth Co. chinery. - Clinton Worsted Co. made improvements in boiler plant. - Bigelow Carpet Co. shut down temporarily for repairs. July. Smiley Manufacturing Co., clothing, shut down temporarily. - Gilbert M. Mason invented ironing board for special clothing. -Clinton Wire Cloth Co. shut down portion of plant. August. Weaving departments Nos. 2 and 3, Bigelow Carpet Co., shut down indefinitely; department No. 1 ran with reduced force. - Lancaster Mills, cottons, shut down temporarily for repairs on engine. - September. Gibbs Loom Harness & Reed Co. erected addition, 15 x 20 feet, October. Weaving department of Bigelow Carpet Co. ran on reduced two stories. time; in November, worsted department resumed operations. November. Plant of Deershorn Comb Co. destroyed by fire. December. Plant of Clinton Absorbent Cotton Co. leased by Clinton Batting Co. and manufacture of cotton batting begun. - Clinton Wall Trunk Manufacturing Co. shut down portion of plant and reduced force .-Bigelow Carpet Co. shut down temporarily and resumed with reduced force. occurred among weavers at Lancaster Mills, ginghams. — J. B. Parker Machine Co. shut down indefinitely.

Conway. In July, box factory of A. C. Kennett started up after shutdown for a year and one-half. — Work begun on new shoe factory of DeWolf & Bagwell of Marlborough. August. Manufacture of wooden handles established by A. G. Reed. October. Boiler and electric lighting system placed in new shoe factory of DeWolf & Bagwell; in November, factory completed.

Cummington. In January, Scott Jenks purchased plant and established manufacture of wooden goods. August. Turning shop and saw mill of Chilson & Reed destroyed by fire.

Palton. In January, Dalton Shoe Co. began manufacture of new line of goods. February. Dalton Shoe Co. ran overtime.

March. Byron Weston Paper Co. ordered two new water-wheels for Defiance Mill.

May. Contract for government paper awarded Crane & Co.

June. Old Berkshire Mills Co. shut down temporarily.

August.

Z. & W. M. Crane, paper, built new boiler house and put in new water-wheels. — Old Berkshire Mills Co., paper, resumed after eight weeks' shutdown. — Byron Weston Paper Co. resumed operations after three weeks' shutdown. September. Defiance Mill of Byron Weston Paper Co. resumed operations after two months' suspension.

October. Renfrew Manufacturing Co., cottons, resumed operations after seven weeks' idleness. — Old Berkshire Mills Co., paper, resumed after shutdown for repairs. November.

Dalton Shoe Co. ran nights, December. Dalton Shoe Co. added new dynamo. — Renfrew Manufacturing Co., cottons, shut down for one week and resumed.

Dama. In March, Henry W. Goodman & Co., straw goods, increased force; in May, shut down. July. North Dana Mills, woollens, shut down for repairs. August. Henry W. Goodman & Co., straw goods, built addition to factory. October. Crawford & Tyler. woollens, resumed operations after suspension of two and one-half months.

Danvers. In Fébruary, Donovan & Shea established the manufacture of shoes.—Albert C. Allen, retired shoe manufacturer, died, aged 78 years. April. Bernard & Friedman, leather, erected brick building to be used as tannery for colored leather.—Chandler C. Farwell of C. C. Farwell & Co., shoes, died, aged 69 years.—Grain mill of J. V. & J. Hanson destroyed by fire.—Morocco factory of Albert A. Bates damaged by fire; to be rebuilt. May. Members of hook and ladder company struck for more pay. June. Repairs made at morocco factory of Albert A. Bates.—Henry Sawyer, builder of Sawyer leather measuring machine, died, aged 42 years. July. C. C. Farwell & Co., shoes, shut down for inventory. August. Bernard & Friedman, morocco, began manufacture of patent leather.—A. G. Cherbuy established tannery. September. C. C. Farwell & Co., shoes, reduced wages. December. N. T. Walcott and E. F. Colcord began manufacture of heels.—William H. Burns, shoes, shut down indefinitely.

Dedham. In January, Chelsea Pottery Co. started up business in new factory. April. An addition of brick, 50 x 80 feet, built at Norfolk Mills, carpets; in June, improvements made in water service and new dam built; in July, new machinery added. July. Merchants Woollen Co. increased production by addition of spinning machinery; in October, put in new flume and water-wheel.

Deerfield. In July, Arms Manufacturing Co., wallets, shut down for two weeks and resumed.

Dighton. In May, Mount Hope Thread Mill started up by G. L. Macy of New Bedford; improvements in fire protection service made and 2,700 spindles added.

Douglas. In January, Wm. E. Hayward & Co., woollens, added three sets of cards; in May, added new feeds and made improvements in fire protection service; in June, shutdown of plant occurred. August. American Axe and Tool Co. ran on short time. — Improvements made at woollen mill of Wm. E. Hayward & Co. September. Bevel tool department of American Axe and Tool Co. shut down for two weeks and resumed. — Wm. E. Hayward & Co. resumed operations on reduced time after two months' shutdown. November. American Axe and Tool Co. started up on full time. — Wm. E. Hayward & Co., woollens, started up on full time; fire occurred in picker room.

Dracut. In April, Michael Collins, woollens, shut down on account of dull trade; in July, resumed operations. July. Paper mill of M. L. Bassett & Co. damaged by fire. August. Michael Collins, woollens, resumed operations on reduced time. — Merrimack Woollen Mills shut down for one month; company reorganized as Merrimack Woollen Mills Co.

Dudley. In February, David W. Perry, retired hosiery manufacturer, died, aged 76 years. May. Wm. J. Warren, paper, shut down for repairs; in June, resumed operations. June. Stevens Linen Works shut down for repairs; in July, resumed operations; in August, reduced running time to three days per week; in November, resumed full time.

East Bridgewater. In April, Carver Cotton Gin Co. reduced force slightly, owing to lack of orders. May. Edgar E. Worcester granted patent on lasting machine; assigned to Consolidated Hand Method Lasting Machine Co. September. Carver Cotton Gin Co. reduced force; in November, resumed full time. — George I. Loucraft, brick manufacturer, died.

Easthampton. In February, machinery set up in new mill of Sawyer & Wolfe; in March, started up.

April. George S. Colton, elastic cords, Glendale Elastic Fabric Co., and Nashawannuck Manufacturing Co., suspenders, ran on short time.

July. Glendale

Elastic Fabric Co. resumed full time. — Easthampton Spinning Co. shut down one week for repairs. August. Williston & Knight Co., buttons, shut down for repairs and resumed. —— Ionic Knitting Co. shut down. —— Nashawannuck Manufacturing Co., suspenders, made repairs on dam. November. George S. Colton, elastic cords, resumed full time. —— E. A. Brown & Co., wagons, removed from Palmer to this place; plans made for erection of new factory of brick, 38 x 76 feet, two stories.

Easton. In January, Welch-Brush Co., shoes, shut down indefinitely; in April, succeeded by Welch Shoe Co.; incorporated; capital stock, \$5,000. September. Williams Organ Factory completed and business started up.

Enfield. In June, Enfield Manufacturing Co., woollens, shut down indefinitely on account of dull trade; in October, resumed. October. Swift River Co., woollens, started up.

Essex. In March, saw mill of Gates Bros. destroyed by fire. July. Essex Shoe Co. resumed operations after interval of six months.

EVERETT. In February, piano factory of O. J. Faxon & Co. damaged by fire. July. Pratt, Bailey, & Co., knit goods, ran with reduced force. November. Patent granted to Avard E. Finley on railway switching apparatus.

FALL RIVER. In January, American Printing Co. increased capacity. -- Twostory building at Durfee Mills completed; to be used as storehouse and machine shop. Accident to engine at Globe Yarn Mill No. 2 caused shutdown for repairs. — Timothy Sullivan granted patent on device for preserving the edges of cloth while weaving .-Stafford Mills Co. bought additional land for erection of new weave shed. --- Plans made for manufacture of absorbent cotton in Quequechan Mill. -- Dyers employed by American Printing Co. struck because of reduction in pay; settled. February. Broken belts caused partial shutdown for repairs at Parker Mill. - Narragansett Mills added machinery .---- Plans made for erection of brewery plant .---- American Printing Co. attempted to create market by reducing selling price of goods. — American Linen Co. and Granite Mills made additions to card rooms. --- Work on foundation of addition to Barnard Manufacturing Co. begun; building to be 148 x 360 feet, two stories. ---- W. Evans granted patent on shedding mechanism for looms. - Richard Borden Manufacturing Co. damaged by fire and water .--- Weavers at Hargraves Mills struck in protest against fines system; settled. --- At mills of Fall River Iron Works Co. weavers refused to work overtime and speeder tenders struck against reduction. Dubois received patent on improved rope clamps which grip automatically. mill of J. H. Estes & Son and waste room of Union Mill No. 2 damaged by fire. April. American Linen Co. added two new boilers. - Shove Mills added drawing machinery and Davol Mills added spinning frames. — Fall River Iron Works Co. resumed operations after week's shutdown for repairs. — Accidents to machinery caused shutdown for repairs at mills of Sagamore and Metacomet Manufacturing Cos. --- Kilburn, Lincoln, & Co., machinery, licensed by Northrup Loom Co. to attach the Draper shuttle feeding and warp stop mechanism to the Northrup loom. - Mills of American Printing Co. and portion of weaving department of King Philip Mills shut down indefinitely. --Small Bros., frame manufacturers, began erection of addition to works. ---- Stock of Fall River Manufactory damaged by fire. --- Strike of back-boys caused stoppage of work in spinning department of Border City Manufacturing Co. — Weavers at Hargraves Mills struck because of dissatisfaction with wages. May. Stafford Mills corporation decided to increase capital stock from \$800,000 to \$1,000,000, and to build new counting room, 34 x 54 feet, two stories. - Troy Cotton & Woollen Manufacturing Co. decided to enlarge building, 60 x 89 feet, two stories, occupied by Union Belting and American Supply Cos., by addition of two stories. - Patent granted to C. F. Cowdrey on wheel rim. - Fians, Fraser, & Blackway, machinery, purchased plant of Reid & Creighton. — Following corporations added machinery: Richard Borden Manufacturing Co., American Linen Co., Metacomet Manufacturing Co., Globe Yarn, Weetamoe, Conanicut, Merchants, and Hargraves Mills. - Slade Mills added new engine. - Chace Mills shut down temporarily, and Jesse Eddy Manufacturing Co., woollens, and American Printing Co. shut down

- Accidents to machinery caused temporary shutdowns as follows: Fall River Manufactory, Durfee Mill No. 2, and card room of Iron Works Mill No. 2, --- Philip D. Borden of Fall River Iron Works Co., died, aged 80 years. --- Strike occurred among spinners at Davol Mills: settled. - Weavers at Hargraves Mills and Parker Manufact. uring Co. struck; settled in June. June. American Printing Co. started up in part. -Eddy Manufacturing Co., woollens, added new looms, --- Barnard Manufacturing Co. added new engine. - New machinery added as follows: Richard Borden Manufacturing Co., Davol. Merchants, Mechanics, and Hargraves Mills, --- Shutdowns for repairs occurred as follows: Barnaby Manufacturing Co., Sagamore Manufacturing Co., and Chace Mills. - Annawan Manufactory shut down indefinitely. - Ring spinners employed at Robeson Mills and warper tenders at mills of American Linen Co. struck. July. American Linen Co. awarded contract for new chimney 200 feet high. --- W. E. Sharples improved separators used on spinning frames. - New office at Stafford Mills completed. - Globe Yarn Mills, Sagamore Manufacturing Co., and Pocasset Manufacturing Co. added new machinery. - Troy Cotton & Woollen Manufacturing Co. made changes and improvements. - Kerr Thread Co. shut down temporarily. - On account of dull trade and in order to curtail production, following cotton manufacturing firms agreed to shut down during four weeks in July and August, running one week and shutting down one week alternately: American Linen Co., Barnaby Manufacturing Co., Barnard Manufacturing Co., Border City Manufacturing Co., Bourne Mills, Consulcut Mills, Cornell Mills, Davol Mills, Durfee Mills, Fall River Iron Works Co., Fall River Manufactory, Flint Mills, Granite Mills, Hargraves Mills, King Philip Mills, Laurel Lake Mills, Mechanics Mills, Merchants Manufacturing Co., Metacomet Manufacturing Co., Narragausett Mills, Osborn Mills, Pocasset Manufacturing Co., Richard Borden Manufacturing Co., Robeson Mills, Sagamore Manufacturing Co., Seaconnet Mills, Shove Mills, Slade Mills, Stafford Mills, Stevens Manufacturing Co., Tecumseh Mills, Troy Cotton & Woollen Manufacturing Co., Union Cotton Manufacturing Co., Wampanoag Mills, and Weetamoe Mills. -- Storehouse of Granite Mill No. 3 and building occupied by Covel Machine Co. and Covel & Osborn, machinery, damaged by fire. August. Algonquin Printing Co. ran overtime. — Repairs made at Conanicut Mills.-Mechanics Mills added new boilers and Merchants Manufacturing Co. added new carding -Joseph Bolton, inventor of system of weaving fine numbers on coarse cloth, erected shed, 26 x 28 feet, in which to make experiments. - Following mills continued shutdown during fifth week: Chace Mills, Durfee Mills, Laurel Lake Mills, Sagamore Manufacturing Co., Wampanoag Mills, and Weetamoe Mills.--Fall River Manufactory continued shutdown during seventh week. --- Bourne and Robeson Mills shut down indefinitely. --- Kerr Thread Co., Globe Yarn Mills, and Sanford Spinning Co. shut down alternately according to agreement in order to curtail production.-September. Parker Manufacturing Co. ran overtime. Strike occurred among masons. -W. C. Powers erected factory for manufacture of roll-covering. ting down was continued by the following corporations: American Linen Co., Border City Manufacturing Co., Bourne Mills, Chace Mills, Comanicut Mills, Cornell Mills, Durfee Mills, Fall River Iron Works Co., Fall River Manufactory, Flint Mills, Granite Mills, King Philip Mills, Laurel Lake Mills, Mechanics Mills, Merchants Manufacturing Co., Metacomet Manufacturing Co., Narragansett Mills, Pocasset Manufacturing Co., Richard Borden Manufacturing Co., Robeson Mills, Sagamore Manufacturing Co., Seaconnet Mills, Slade Mills, Stafford Mills, Stevens Manufacturing Co., Troy Cotton & Woollen Manufacturing Co., Wampanoag Mills, and Weetamoe Mills. - James C. Eddy of the Jesse Eddy Manufacturing Co., died, aged 67 years. October. Tecumseh Mills added new machinery. - Barnard Manufacturing Co. placed looms in new weave shed. — Kelly Shoe Co. organized; capital stock \$30,000. — American Linen Co. installed electric lighting plant and completed new chimney. — Parker Manufacturing Co. discontinued overtime work .- Fall River Machine Co. reduced running time. - Fall River Manufactory and Metacomet Manufacturing Co. shut down indefinitely. --- Suspensions for repairs occurred as follows: American Linen Co., American Printing Co., Chace Mills, Merchants Manufacturing Co., and Metacomet Manufacturing Co. ---- Strike occurred among weavers at Stevens Manufacturing Co.; settled. November. Patent granted to Julius M. Weaver on apparatus for leveling silk thread; to Samuel H. Dubois on ring spinning frame; to Joseph Hampson on loom harness. - Kerr Thread Co. resumed full -New spinning frames placed in No. 4 mill of Fall River Iron Works Co. American Printing Co. ran on reduced time. - Fall River Manufactory shut down temporarily. --- Waste mill of J. H. Estes & Son damaged by fire. --- Strike occurred in spooling department of Stafford Mill No. 2. December. Robeson Mills resumed operations. — Tecumseh and Granite Mills added new machinery. — Merchants Manufacturing Co. placed new engine in No. 8 mill. --- Plant of Algonquin Printing Co. damaged by fire. — During past year amount of time lost by shutdowns was as follows: American Linen Co., ten weeks; Annawan Manufactory, eight months; Barnard Manufacturing Co., four weeks; Border City Manufacturing Co., eight weeks; Bourne Mills, two weeks; Chace Mills, seven weeks; Conanicut Mills, Cornell, and Davol Mills, four weeks each; Durfee Mills, six weeks: Fall River Manufactory and Flint Mills, seven weeks: Globe Yarn Mills, four weeks; Granite Mills, five weeks; Hargrayes Mills, four weeks; Kerr Thread Co., three days per week for four months: King Philip Mills, four weeks: Laurel Lake and Mechanics Mills, six weeks each; Merchants Manufacturing Co., nine weeks; Metacomet Manufacturing Co., eleven weeks; Narragansett Mills, three and one-half weeks; Osborn Mills, four weeks; Pocasset Manufacturing Co., seven weeks; Richard Borden Manufacturing Co., four weeks; Robeson Mills, six months; Sagamore Manufacturing Co., nine weeks; Sanford Spinning Co., six weeks; Seaconnet Mills, four weeks: Shove Mills, four weeks: Slade Mills, five weeks: Stafford Mills, six weeks: Stevens Manufacturing Co., six weeks; Tecumseh Mills and Troy Cotton & Woollen Manufacturing Co., four weeks each; Union Cotton Manufacturing Co., five weeks; Wampanoag and Weetamoe Mills, eight weeks each. Average shutdown time about seven weeks.

The annual cloth statement, issued by Clinton V. S. Remington, for 1896, showed a production of 10,055,000 pieces, a decrease, as compared with 1895, of 1,035,000 pieces, or 9.33 per cent. Sales for the year were 7,819,000 pieces, of which 5,668,000 pieces were "odd" and 2,151,000 pieces were 64x64s. This shows a decrease, as compared with 1895, of 2,052,000 pieces, or 20.79 per cent. There were 1,001,000 pieces sold for future delivery as against 1,125,000 pieces in 1895, a decrease of 124,000 pieces, or 11.02 per cent. The average price paid during the year was .026001, the highest 3 cents and the lowest 2 7-16 cents. The following table shows production and sales since 1891:

		Number of Pieces							
CLASSIFICATION.	1891	1892	1898	1894	1895	1896			
Total production,	. 9,985,000	10,045,000	9,065,000	8,478,000	11,090,000	10,055,000

Burns Co. destroyed by fire; rebuilt. October. Crompton Loom Works received order from Mexico. — Mawhinney Last Co. secured quarters in Brockton for removal of business to that place. — Reliable Manufacturing Co., cotton underwear, removed from Westborough to this place. - Cotton underwear factory of William H. Burns Co. resumed operations. - Plant of Windle Bicycle Co. sold to Frank T. Fowler of Chicago, and started up to manufacture bicycles. ---Charles F. Green, manufacturer of artificial stone, died, November. Thomas F. Hickey invented wool-dabbing appliance for aged 60 years. combing machines. --- Patents issued as follows: To Brown & Simpson Co., on automatic piano; to William H. Redding, on doup heddle for leno weaving; to George H. Scott, on electric rail bond; to William L. Decker, on crank and pedal; to John F. Adams, on chin rest for dental operating chairs; to David Keitcher and C. Weinstein, on combination tool for pipe fitters; to Albert M. Powell, on feed operator and feed stop for metal planing machines; to Henry D. Perky, on machine for reducing and preparing cereals for food; to George W. Bemis, on drum; to Merrill E. Clark, on burnishing machine and machine for finishing stock; and to Joseph P. Doray, on window frame. --- Knowles Loom Works increased force and running time. — F. A. Lapham of Millbury, secured mill in this place for manufacture of cassimeres. — Erection of addition begun at bicycle manufacturing plant of F. T. Fowler; 18 x 44 feet, two stories. - W. C. Young Manufacturing Co.,

machinery, increased space, --- Crompton Loom Works increased force and running time. - Washburn & Moen Manufacturing Co., wire, increased running time. - Powell Planer Co. added new planer built from plans modeled by A. M. Powell, president of company. --- Oliver K. Cook, formerly pump manufacturer, died, aged 80 years. --- Osgood Bradley of Osgood Bradley & Sons, car manufacturers, died, aged 59 years. - Strike occurred among plumbers. December. Patent granted to William Downey on apparatus for tapping pipes or mains. - Samuel Winslow Skate Manufacturing Co. received permit to build addition of brick and stone, 24 x 45 feet, four stories. - Logan, Swift, & Brigham Envelope Co. made plans for new addition, 44 x 70 feet, five stories. - Bemis & Fletcher, manufacturing under name of Waverly Shoe Co., dissolved; business continued by Gilbert C. Bemis under same style. - F. A. Lapham started up Jamesville Woollen Mill. — Thomas Williams. woollens, erected new storehouse, 30 x 60 feet. — Worcester Corset Co. installed electric lighting plant. - Mawhinney Last Co. removed to Brockton. - Frank T. Fowler Cycle Co. incorporated under laws of New Hampshire; capital stock \$100,000; decided to remove to Keene, N. H. -- E. F. Rice, formerly president of Rice & Griffin Manufacturing Co., building material, died, aged 57 years. -_ A . W. W11. cox, inventor of Wilcox organ coupler, died, aged 70 years.

Worthington. In July, A. Stevens & Sons, wooden goods, erected new dam.

Wrentham. In July, Plainville Stock Co., jewelry, shut down; resumed in August.

THE STATE. Returns are made from 196 cities and towns in the foregoing Chronology, as against returns made from 199 cities and towns in 1895. In the following table is presented a summary of the facts shown in the preceding pages placed in comparison with the items contained in the Industrial Chronology for 1895:

Classification of Changes, Suspensions, Fires, etc.		Number of Establishments Re- porting Specified Changes, Suspensions, Fires, etc.	
		1895	1896
Firms, establishments, and industries new to towns,		127	140
Buildings constructed during the year,		181	88
Machinery added to plants,		211	159
Other additions to plants,		205	. 76
Addition of new class of product to manufacture,		14	11
New industrial corporations organized,		67	41
Amount of capital stock of new industrial corporations,		\$8,992,900	\$7,865,000
Rebuilding of burned factories, etc.,		14	14
Removals to larger quarters,		45	14
Resumption of business after protracted shutdowns,		65	10
Use of important new inventions,		4	8
Changes from private firms to corporations,		1	12
Changes in firms, firm names, etc.,		94	64
Changes in character of product,		6	12
Changes in character of machinery,		1	4
Changes from hand to machine lasting in Boots and Shoes, .		1	•
Consolidation of firms and corporations,		-	9
Increases in capital stock,		12	•
Decreases in capital stock,		2	-
Removals of firms and industries to Massachusetts from other St	ates,	6	18
Removals of firms and industries from Massachusetts to other St	ates,	14	7
Removals from one town to another in Massachusetts,		87	44
Increase in number of employés,		88	36
Reduction in number of employés,		9	53
Increase in rate of wages paid		91	1
